Subject: Extension of Existing STA License

Dear Federal Communications Commission:

I am requesting the extension of an existing STA license. The so referenced license was issued to Utah State University (Space Dynamics Laboratory) on OCT/15/2000 with myself as the point-of-contact. **The File Number is 0464-EX-ST-2000, and the Call Sign is WB9XKQ.** The license expires JAN/01/2001. I am seeking an extension of the license until MAY/01/01.

Our situation continues as a scientific radar campaign (which has metwith much success), but the radar in use will not leave Garden City, Utah until April or May of next year. At that time it will be shipped to Canada. The extension is based on the fact that the group who "loaned" us the radar for the campaign originally indicated that they would be able to retrieve that radar in the wintertime, but that status has changed and they will not be able to remove the radar until next spring. Utah State University paid a filing fee of \$50.00 for the original license. As Utah State University is a state organization, I am requesting that you waiver the additional filing fee of \$50.00 for the extension. Your assistance is appreciated.

Regards,
Chad Fish
