Subject: Request for Info - File # 0736-EX-CN-2026

Message:

You stated, " We're currently licensed to operate in the 217-220MHz band using 10kHz-wide channels".

- 1) If you already have a license to operate in the band, why do you need an experimental license?
- 2) What is the call sign for the station that you are transmitting?
- 3) Is the equipment listed experimental? If not, why did you check mark them as not experimental?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 03, 2026 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
