Washington, DC 20554

Dear Sir:

I have enclosed FCC Form 442 as application for the renewal of our radio station license, call sign K12XDP. Our research objectives involve the use of mobile radio units of very low power (0.250 watts, 157-175 MHZ) for telemetry of seismic data to microwave and/or telephone relay points within Utah and parts of southeastern Idaho and western Wyoming. I have also enclosed a copy of our most recent publication prepared using data obtained under our current radio station license.

If I can provide additional information, please call me at 801-581-6274.

Sincerely,

Sue Nava
Senior Staff Seismologist
