RE: Experimental Applications File Nos. 3642-EX-PL-93,
4012-EX-PL-93, 4468-EX-PL-94 & 4546-EX-PL-94

Dear Mr. Rael:

The above referenced application have been pending with the FCC for a considerable period awaiting approval from the International Bureau of the FCC granting COMSAT authority to service to the Inmarsat equipment listed in your application. To date we have been unable to obtain the necessary clearances, hence the delay in granting the licenses.

If you have received a letter/letters issued to Comsat Mobile Communications from the FCC, International Bureau, giving COMSAT permission to serve the Inmarsat equipment in your applications, please send us a copy/copies and we will resume processing your applications. If you have not received such a letter, and the requirement for these operations still exists, please contact Comsat to obtain a copy of approval from the FCC to serve these terminal(s). In either case and in view of the long pendency of your applications, could you please indicate to me in writing, whether or not you wish to continue prosecute your applications.

Please submit the requested information to the FCC, 2000 M St., N.W., Suite 230; Wash., DC; 20554; Attn: OET/NTDD/ELB, MS 1300E1, Ms. Peggy Fowler. Failure to respond within 30 days will result in the dismissal of your applications in accordance with Section 5.60(b) of the Commission's Rules.

Sincerely,

A handwritten signature in cursive script, reading "Paul L. Marrangoni", is positioned above the typed name.

Paul L. Marrangoni
Chief
Experimental Licensing Branch
