

Valence Systems and Technolog requests the STA application is treated as confidential, with the following justification.

- 1.) Frequency, transmission power, modulation type, modulation bandwidth information is considered sensitive by U.S. DoD.
- 2.) Submitted as Special Temporary Authorization (STA) request for 11-13 September, 2018.
- 3.) Some operational parameters of the U.S. DoD test event are considered sensitive.
- 4.) Frequency, transmission power, modulation type, modulation bandwidth of the prototype system are not publicly available
- 5.) Release of information in (1) may provide adversaries of the U.S. with an advantage.
