Subject: 1472-EX-ST-2017 pre-coordination data request

Message:

We have coordinated with Rodney Murphy from the FAA and he has advised that if we edited the frequencies we use to exclude bands that the FAA use. Than no pre coordination is needed. I have copied his email response below. If you would like to received the entire email chain, please provide me with an email for you. The changes have been made in our application to 500 MHz to 750 mHz. Thanks.

If the application is edited to exclude FAA bands, then there is no need for precoordination with us.
Thanks.
