

Informal Objection to Application 0690-EX-ST-2015

Rural California Broadcasting Corporation, (RCBC) Licensee of Channel 23 NCE station KRCB hereby informally objects to application 0690-EX-ST-2015. The application, as filed by VUUM LLC, proposes operation in San Francisco on TV Channels 22 and 24. As these channels are upper and lower first adjacent to KRCB's Channel 23, and as the application proposes operation on these adjacent channels within KRCB's protected contour, RCBC objects to a grant of the application. RCBC respectfully requests that Federal Communication Commission deny the application as filed.

Sincerely,

Larry Stratton
