**Re: W3 Communications, Inc.
File Nos. 0420-EX-PL-2007, 0423-EX-PL-2007, 0424-EX-PL-2007,
0425-EX-PL-2007, 0426-EX-PL-2007, and 0427-EX-PL-2007**

Dear Mr. Burtle:

Mobile Satellite Ventures Subsidiary LLC ("MSV") hereby requests that W3 Communications, Inc. ("Applicant") amend the above-referenced applications to correct an apparent typographical error.¹ As explained below, MSV believes that Applicant intends to operate in the 3650-3700 MHz band and not in the 350-3700 MHz (or 359-3700 MHz) band, as specified in the FCC Form 442 of the above-referenced applications. The incorrectly specified band includes spectrum authorized for and operationally in use by MSV. MSV is the licensee of AMSC-1 and MSV-1, United States satellites licensed by the Commission to provide Mobile Satellite Service ("MSS") in the L band (1525-1544/1545-1559 MHz (downlink) and 1626.5-1645.5/1646.5-1660.5 MHz (uplink)), and provides, *inter alia*, critical communications services to public safety users.

In five of the above-referenced applications, Applicant requests authority to operate in the 350-3700 MHz band in the FCC Form 442,² and in one application, Applicant requests authority to operate in the 359-3700 MHz band.³ However, Exhibit 2 ("Description of the Proposed Operations") attached to each application specifically states that "W3 Comm plans to develop and deploy systems . . . using radio spectrum in the 3650-3700 MHz band."⁴ Additionally, four other applications submitted by the Applicant during the same period indicate

¹ MSV has attempted to contact the Applicant and seek clarification regarding the applications. But, the phone number listed in the applications has been disconnected, and the Applicant has not returned MSV's email correspondence.

² See FCC Form 442, File Nos. 0420-EX-PL-2007, 0423-EX-PL-2007, 0424-EX-PL-2007, 0425-EX-PL-2007, and 0427-EX-PL-2007

³ See FCC Form 442, File No. 0426-EX-PL-2007.

⁴ See Exhibit 2 – Description of the Proposed Operations, at 1 (emphasis added).

in the FCC Form 442 and in the exhibits attached to the forms that the Applicant seeks to use the 3650-3700 MHz band.⁵

For these reasons, MSV believes that Applicant intends to use only the 3650-3700 MHz band and does not seek authority to use the 350-3650 MHz (or 359-3650 MHz) band, despite the inclusion of those frequencies in the FCC Form 442 in the above-referenced applications. Please contact the undersigned with any questions.
