Re: Walmart's NPSPAC Channel Request

Dear Doug:

This letter is to inform you that IMSA is unable to recommend Walmart's request for certain NPSPAC channels.

The attached excel documents show IMSA's search of Old and New NPSPAC channels for the proposed system. The highlighted channels need to be filtered out by Walmart. Due to anticipated harmful interference to existing public safety licensees, we cannot recommend assignment of these channels to Walmart.

We also cannot recommend assignment of the non-highlighted new NPSPAC channels requested by Walmart. These channels currently are licensed to Sprint. Due to the rebanding project, Walmart has to wait for Wave 2 for the State of Arkansas to be completed and/or has to obtain a Letter of Concurrence ("LOC") from Sprint.

I hope this helps. If you have any questions please call or e-mail me immediately.

Sincerely

A handwritten signature in cursive script that reads 'Richard Kinsman'.

Richard Kinsman
National Frequency Coordinator

Wal-Mart - 866 to 869 MHz / Coordination: N36-21-50
