DISMISSED-WITHOUT PREJUDICE

Dear 1375 Trans-Canada Highway,

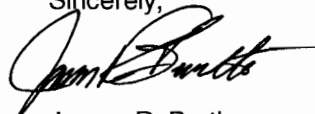

This refers to application, File No. 0378-EX-ST-2010, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. This application was dismissed due to the reason shown below:

- 1) The band 1747–1755 MHz is an FCC auction band and not a good candidate for wireless USB at about 1 watt.
- 2) 1755–1828 MHz is a federal band with many fixed microwave sites and this use would cause interference to present and future government operations.

Responses to this correspondence must contain the Reference number : 11692

Sincerely,

James R. Burtle
Chief
Experimental Licensing Branch
