Re: CITY OF WEST ALLIS, WI
FRN 0010354397
0071-EX-ST-2004

The City of West Allis, WI, currently shares a Public Safety communications system with a neighboring community. West Allis is moving off of this system and is moving operations to a Countywide communications system.

The approval to move to the Countywide system was delayed by the political process but has just recently been granted.

The STA is needed for a 6-month period in order to maintain Fire Department station alerting while the formal FCC application is in process.

The requested frequency 858.4625 MHZ was recommended by the State APCO Frequency Coordinator and is being applied for
