

6/25/2019

To Whom It May Concern,

This is to certify that:

WeWork deploys and/or manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by WeWork in a controlled environment.

WeWork will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

WeWork has extensive RF experience and expertise deploying RF networks and has a number of RF engineering consultants working with us deploy these solutions.

For the above reasons, I believe WeWork meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

DocuSigned by:
