

Memorandum for: FCC

12-22-2005

From: James Edwin Whedbee, M.Ed.

Subject: Purpose of Experimentation

Re: File #0395-EX-PL-2005

To the Commission:

The purpose of this experimentation is to conduct propagation studies to teach students. I am an FAA- Certified aviator and this experimentation will be conducted as a mobile unit for students to receive at locations throughout Kansas City, MO while I am mobile. The A3E modulated signals will be used for station identification and to report station location information, including altitude, longitude, and latitude and such other signals as shall enhance the propagation studies.

Best wishes,

/s./ James Edwin Whedbee, M.Ed.
