Subject: Request for Info - STA File #0998-EX-ST-2012

Message:

Is the frequency band requested, 7-9.999 kHz, correct? The FCC does not regulate frequencies below 9 kHz, and the frequency band 9-14 kHz is allocated to radionavigation. What would be the purpose of operating in the radionavigation band? Where would this be headed in the future?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 28, 2013 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
