15 December 2004

FCC
OET – Experimental Licensing Division
Washington, DC

Attention: Application reviewer

Re: 1) Request for confidentiality per 0.459 of the Rules 2) Request for expedited service

Applicant: Wheels of Zeus
File Number: **0305-EX-PL-2004**

To whom it may concern,

Wheels of Zeus is developing a tracking system for persons and possessions. The system uses the unlicensed 902-928 MHz band regulated by Part 15 of FCC Rules.

Wheels of Zeus requests the details of this experiment be kept confidential, in particular the description of the experiment. Wheels of Zeus has spent considerable time and money in developing the prototype system. Revealing the purpose and design of the system would reveal confidential development and marketing information that would be valuable to competitors of Wheels of Zeus .

The reason for the filing is even though the product operates under Part 15 of the Rules, the devices will be used in residential environments and as such are not exempted by 2.803 from being operated prior to equipment authorization.

Wheels of Zeus would like to start the experiment on 4 January 2005.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N COKENIAS
Agent for Wheels of Zeus
