Subject: Request for Info - File # 0447-EX-CR-2018

Message:

Reference number 44485

My bank told me yesterday that check number 13126 for \$70.00 to the FCC cleared my bank on October 11, 2018.

When I file my application I tried to pay by card on website, however the 159 was filled in a company name of mine as payer. I was unable to change the payer to my name as I was going to use my card.

At that point I filled a blank 159 by hand and mailed a check. FCC code 2 on the 159 filled by the web was 13EL287398 so I placed this on the hand filled 159.

The check and hand filled 159 were returned with form 164 telling me that FCC code 2 on the 159 should start with "13EA";.

I filled a new 159 by hand with the FCC code 2 as 13EA287398 and mailed it with my check.

The check has now cleared the bank.

I don't understand why my check and 159 were returned as the web filled 159 had 13EL287398 and my records show that in the past all my 159's have had FCC code 2's that started 13EL. Plus my confirmation number was EL287398.

Maybe this will help find my payment.
