FYI, if you examine the FCC's earth station license database, it shows that this license has been surrendered.

Loral's Three Peaks, CA facility has been closed.

We have no objections to your application.

George Wazeter

Subject: Experimental License for use of 3.650 - 3.700 GHz band in Palo Alto, CA

Dear Mr. George,

Pursuant to FCC Docket 05-56 adopted to protect Grandfathered FSS earth Stations, WiLine needs to provide the details on the application for Experimental License for use of 3.650 - 3.700 GHz band in Palo Alto, CA, to obtain consent from the existing licensees like:

CA Three Peaks - Call Sign: E950208, File No: SESMOD2001032600656- Loral Spacecom Corporation

We respectfully request that you review the attached application and technical data of our radio for its interference potential with your system(s) and send your approval or objection by replying to this E-mail by May 18, 2007.

If you object to this application, it is important that you include the technical details supporting your objection in your response.

Please do not change the subject of the E-mail to ensure proper handling of your reply.

Please contact me if you have any questions or need additional information.

I also found the name of Mr. Stanley Edinger on the contact information as well, after I talked to you. His email is se@loralskynet.com and his contact number is 908-470-2342. I hope this information will be helpful.

We truly appreciate for your assistance.

Sincerely,

Cuong Pham
