

Wireless Facilities, Inc.

FCC Form 442

Exhibit 3: Additional Response to Item 5

Geographic Area and Location of Study Area

Location of Applicant Offices in the Washington DC Area

Proposed Area of Study

The map below shows the location of the WFI Reston office, and the Washington Metropolitan Area. The instant proposal requests authority to conduct testing throughout the Washington MTA in order to study channel and performance characteristics in a variety of settings, whether urban, rural, forest, or other.

The variety of conditions that may be allowed for testing will result in better analyses to be conducted.
