This exhibit replaces exhibits submitted in December 28, 1998 and February 5, 1999 in association with this license.

WOL is hereby submitting a formal request to the FCC to modify WOL's current experimental license (WA2XEH) from a San Francisco regional license to a nationwide license. In addition this modification requests WOL's current license be expanded to include Broad Band PCS Bands A and B. All of these modifications are requested to support WOL marketing tests.

The technical parameters for WOL's license are requested to remain the same as the current authorization, except as requested below.

900 MHz Narrowband PCS WOL is requesting its current experimental license for NBPCS be modified to allow nationwide coverage.

1900 MHz Broad Band PCS. WOL is requesting its current experimental license for WBPCS be modified to allow nationwide coverage and to also allow operation in Broad Band PCS bands A and B.. Specifically, WOL is requesting nationwide experimental use of the 1900 MHz Broad Band PCS bands A through F.
