

MEMORANDUM TO FCC

FROM: WT6945913, LLC

RE: Seasonal STA to Experiment
with weather-enhanced K-Band Radar
signal propagation...

SUBJECT: Statement as to
Experimentation Purpose

To the Commission:

The foregoing STA application seeks
authorization to operate a station on
24.15 GHz employing a K-Band radar
to bounce radio signals off rain and/or
hail in towering thunderstorms within
10 kilometers of the transmitting station.
The authorization proposes operation
between July and November, 2009.

Respectfully Submitted:
