Subject: FW: Unable to Send Mail Record

We applied for this license over 3 months ago and after not seeing any progress, we went another route applying for a different type of license which we were granted back on 5/16. Therefore we no longer need this license.

Your site states the following:

"Applications for STAs are generally processed on a first come, first served basis along with regular applications and should be filed well in advance (at least 30-60 days, if possible) of the desired start day."

It has now been 98 days since we filed for this license. I am surprised that this is the first correspondence/inquiry that I have received regarding the application. Is there any way of returning our \$60 application fee?
