I am back in the office. The ERP for the Base radio is 95W and 46W for the mobile unit. Thanks for the help.

Sir, I am out of the office until Feb. 1. I am checking my e-mail remotely. If you need the numbers before then, I can get someone else to get those to you. thanks for the help.

Mr. Hansen,

On your current renewal application for callsign No. WC2XVI , File No. 0004-EX-RR-2007, you have stated "Output Power" of 100W for fixed and 50W for mobile. Could you provide me with the actual ERP emitted instead of the "Output Powers".

Thank you
