Subject: RE: 1-EX-ML-2002 Withdrawal of application

Dear Mr. Huie:

Pursuant to our conversation of this morning, please regard this e-mail message as Wytec's official request to withdraw our experimental license application No. 1-EX-ML-2002.

We will re-file this application consistent with our objective of testing equipment that will be manufactured for export purposes.

If any part of this message is insufficient to the FCC's requirements for official notice of withdrawal of the subject application, please notify the undersigned.

Very truly yours,

Robert F. Julien

Because this request is for a purpose different from that of WA2XZB, Wytec needs new license. Please withdraw 1-EX-ML-2002 and file application for new station.
