Hi Nimesh,

I just received the following request: "Please address the following questions/concerns: Please provide the Point of communication: orbital information, name and call sign, File No. of the Pulsar LEO satellites. What are the transmitting frequency bands?"

We haven't filed for the spacecraft yet and so we don't have this information at the moment. Is there anything I can help provide in the meantime? Feel free to reach out to me at (408) 204-1623 if there is anything I can clarify.

Thanks,

Andrew Neish
