Subject: Additional Information Request

---

Message:

On behalf of York Space Systems, L.L.C. ("York"), applicant in File No. 0921-EX-CN-2019, Call Sign WK2XRK, I hereby withdraw the request to operate throughout the 8200-8400 MHz band, instead request authority to operate in the 50 MHz band segment at 8275-8325 MHz, and confirm that this more limited band segment would be acceptable for York's proposed operations.

Best regards,

Carlos Nalda
