Wireless Charger User Manual

Product Specification

SKU #: 362993

Model No.: MQ-W10

Input: 9V/2A, 5V/2A

Output: 10W (Max)

Efficiency: $\cong 73\%$

Transmission distance: $\leq 8\text{mm}$

Front

Product Introduction

This wireless charger is an intelligent product with simple design that is compatible with all smart phones that have wireless charging capability. Charging your smart phone or other wireless-ready devices without any plug-in cables, this product is more convenient and easier to use throughout your day.

INSTRUCTIONS

1. Connect the Micro USB cord end into the wireless charging pad then connect the USB end to a DC charger or wall charger
2. When the charging pad connects to the power supply you will see the LED indicator light on
3. Put your wireless-ready device on top of the flat bamboo surface for charging
4. Once the wireless device/smart phone is charging, there will be one green LED light on
5. When the wireless device/smart phone is fully charged, there will be a blue LED light on

Attention:

1. Please keep this charger away from water or other liquids
2. If you need to clean the charging pad, disconnect it from the power supply before cleaning
3. Product should be used in environmental temperatures of 0 to 45 degrees Celsius

FCC RF Radiation Exposure Statement Caution: To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20cm from nearby persons.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult an experienced radio/TV technician if repair for help
