| |  A photograph showing a radiated measurement setup in an anechoic chamber. A blue rectangular device is positioned on a white rectangular platform. The platform sits on a grey rectangular base. The base is surrounded by a black foam rubber edge. The entire setup is situated within a room with white walls that have a grid of black crosses painted on them. The floor is covered with a dark, textured material. In the foreground, the top of a grey cylindrical antenna or probe is visible. |
