

150x105mm

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WIRELESS CHARGER

User Guide

Wireless Charger
English manual

Description:
Easy to charge your phone without cables, just put your phone on the charging plate.

Specifacations:
Input: 9V-2A.
Output:15W(MAX)

Package contents:
Wireless charging plate
Power cable

Power supply:
The charger is recommended to power with a qualified AC adapter.

Operation:
Connect the wireless charger to an outlet such as a qualified AC adapter. Put your phone on the charging plate. When the LED starts flashing your phone is being charged. If the phone doesn't start to charge, reposition it until the light starts flashing.

Care Instructions:

- Do not expose charger to extreme temperatures, water or moisture (intended for indoor use)
- Always confirm voltage & compatibility prior to charging
- Only use a certified USB adapter (not included)
- Do not disassemble or modify the charger
- Charging plate is intended to charge 1 device at a time
- For optimum charging, remove any protective covers from your device
- Do not place any foreign objects on charging plate aside from the device that is being charged
- Do not use the charger if it has been damaged, exposed to elements or altered in any way
- Handle product with care
