Setting Up Your Phone

Insert a SIM/microSD*

1. Lift the back cover at the notch on the lower left corner of the device, then firmly peel back the flexible cover to remove it.

2. If there is a previously installed SIM card, slide the card from right to left to remove it.

3. Hold the new SIM with metallic contacts facing down and the cut at the top left corner. Slide the card into the SIM slot.

4. Hold the microSD card (sold separately) with metallic contacts facing down and the cut side on the right. Slide the card into the microSD slot.

5. Replace the cover on the back of the phone and ensure proper assembly by pressing and clicking around the cover's edges.

6. Press and hold the **Power/Lock key** until the device turns on.

Charge using the AC Adapter

1. Connect one end of the data cable to the USB port located on the bottom of your phone.

2. Connect the other end to the power adapter.

3. Connect the power adapter to an electrical outlet to fully charge your phone.

* WARNING!
To avoid damage to the phone, do not use any other kind of SIM card or any non-standard Nano SIM card cut from a SIM card. You can get a standard Nano SIM card from your service provider.
