- Battery Capacity : 500mAh
- Charging Time: about 2H
- Size/Weight: 53.5*50*28.5mm/45.5g

03

Power On/Off

Auto Power On

The earbuds will turn on automatically when you open the charging case.

Auto Power Off

Put the earbuds back into the charging case and close the case, the earbuds will turn off automatically and enter charging mode.

04

Manually Power On

If the earbuds are not in the case and power off, press & hold them about 2 seconds, light on earbuds will flash blue and then them will power on.

25

Manually Power Off

Press & hold the earbuds about 5 seconds, light on earbuds will flash red and then them will power off.

55

Note: If the earbuds are not connected to your device over 5 minutes, the earbuds will power off automatically.

05

Bluetooth Connection

Prior to first use (or not in use for long time), please fully charge both earbuds and charging case.

First Time Pairing

Step 1 - The twin earbuds will automatically power on and enter pairing mode when you open the charging case.
At this time, led indicator of master earbud will flash Blue & Red light alternately, and the vice earbud led indicator flashes Blue light 2 times every 2 seconds.

Step 2 - Activate the Bluetooth setting on your phone, search and connect "H06".
Once connected, the led light of both earbuds goes off.

Mono Mode (Only Left/Right Earbud is being Used)

You can use one earbud alone, leave another earbud in the charging case.
- When in Dual mode, put one earbud into the charging case and close the case.
- Turn on the Bluetooth setting on your phone, then search & connect "H06" on your device.

06

For Second Time Use

If the earbuds have already connected with your device, and the Bluetooth setting of this device is on, in the second time using, when you take out the earbuds from the charging case, they will connect with your device automatically.

Pair with Other Device

H06 Earbuds have memory function, they usually auto connect with the last paired device.
Thus, if you want to pair them with other device, you should disconnect "H06" from the last paired device, AND forget the pairing record on the last device.
Then try to connect it to a new device, it should work properly.
