Q&A

- ① The Earphone cannot be paired with the mobile phone?
Check whether the Earphone is paired or connected back, and check the Bluetooth search function of the mobile phone.
- ② The Earphone cannot be turned on?
Please check whether the power of the Earphone is sufficient, and charge it for 30 minutes before turning it on.
- ③ Can I replace the battery of the Earphone?
No, this Earphone uses a non-removable battery.
- ④ Can I use this Earphone while driving?
It is not recommended to use a Bluetooth Earphone while driving.
- ⑤ The Earphone is disconnected from the mobile phone?
The effective distance of this Earphone is 10 meters indoors. If the distance between the mobile phone and the Earphone exceeds 10 meters or there are multiple obstacles, the Earphone and the mobile phone will be disconnected. Please keep the Earphone within the effective distance.
- ⑥ After the Earphone is connected to the computer or mobile phone, do you hear different sounds?
Since Bluetooth is a wireless technology, it is very sensitive to objects between the Earphone and the connected device. Please check whether there is metal or other objects in the connection range that may affect the connection.
- ⑦ After the Earphone is connected to the mobile phone, can I use the Earphone to control the applications on the mobile phone?
The software settings of the device applications may be different, so that the functions of individual applications do not support control by the Earphone.

Security Question

- ① As there is a battery in the Earphone, please try to keep this product away from high temperature areas.
- ② Please try to use qualified chargers and charging cables, and avoid using high current and voltage fast charging equipment to charge this product.
- ③ Please choose a suitable scene to use this product.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
