FUNCTION OVERVIEW

SPECIFICATION

Size	7"	Connection	WI-FI
Chipset	A133	CPU	64-bit Quad-Core Cortex A53
GPU	GE8300	RAM	2GB
ROM	16GB	Display	TN1024*600
Front-facing Camera	0.3MP	Network	802.11b/g/n(Wi-Fi),BT4.1
Back Camera	2MP	Power Supply	DC 5V 2A
Battery	2500mAh	Touch	Multi-touch
Operating System	Android 10 Go	Ports	Type C Port / microSD Card Slot

START

Power on/off

1. Hold down the power button for 2-3 seconds to turn on the tablet. Select the language and follow the start up guide to set up the tablet.
2. Hold down the power button for 2 seconds before releasing it, which will display power off and restart on the screen. Click power off to turn off the tablet.
3. Press and hold the power button for 5 seconds to do a forced shutdown, if it freezes.

Battery

1. A rechargeable Li-ion battery is installed in the tablet.
2. We suggest you drain the battery completely once a month, if you only use your tablet occasionally.
3. DO NOT dispose of tablet in a fire.
4. Charge the device fully each time to increase the battery life.
5. You can charge the tablet, even if the tablet has some power left in it, as the lithium battery does not need to be fully drained to charge.
6. A full charge can be used for an average of 3 hours.

Sleep Mode

Simply press the power button once to switch the tablet to the Sleep Mode when the tablet is ON; press again to wake it up.

Tip:

Go to Settings > Display > Screen timeout to set the time of entering the Sleep Mode.

HOME SCREEN

Icon on the Bottom Menu

1. Volume Down
2. Back
3. Home Screen
4. Recent Activities
5. Volume Up

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Portable

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Specific Absorption Rate (SAR) information:

This tablet computer meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: tablet computer has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the phone kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the phone. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
