### Package Contents

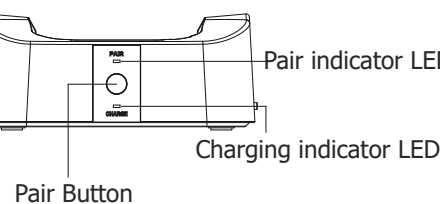

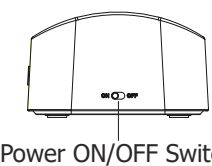

- BTH02 Headphones
- BTH02 Transmitter/Charging dock
- Type-C USB Power Cable
- 3.5mm Audio Cable
- 3.5mm Female to RCA Male Cable
- Optical Cable
- User Manual

### Overview

#### Headphones:

#### Transmitter:

### LED Indicators of the transmitter

LED Indicator	Status
Flashing Red and Blue alternately	Pairing mode
Solid Blue LED	Connected
Red LED on / GREEN LED on	Headphone Charging/ Charging completed

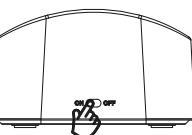

### LED Indicators of the headphones

LED Indicator	Status
Flashing Red and Blue alternately	Pairing mode
Blue LED flashes twice in 7 seconds	Connected
Red LED on/off	Charging/charging completed
Red LED flashes twice in 8 seconds with reminding voice	Low battery

### Turn on BTH02

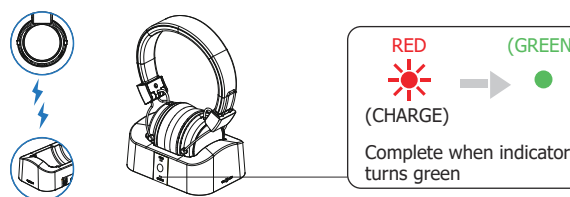

**Power on the transmitter/charging dock**  
 Connect the transmitter/charging dock to a compatible power source (or compatible USB charger with 5V/500mA -2A output) via the supplied Type-C USB cable.

Slide ON/OFF switch to "ON" position, it will enter into pairing mode automatically with Blue and Red LED light flashing alternately. You could also press and hold the Pair Button for 2 seconds to make it enter into pairing mode manually.

### Charge and turn on the headphone

Charge headphone for 2.5 hours prior to the initial use: Place the headphone on transmitter/charging dock, the charging begins automatically, the CHARGE LED on the transmitter/charging dock lights up RED. When the charging is complete, the CHARGE LED on the transmitter/charging dock will turn Green. The red led light will not turn on if the headphones have enough battery inside, you could use it directly.

### Turn on the headphone:

The headphones turn on automatically when you take it away from the transmitter/charging dock or wear them on your ears. You could also press and hold the multifunction button for 5 seconds to turn on the headphones manually. The Headphones will enter into pairing mode automatically with Blue and Red led light flashing alternately after it is switched on.

Then the headphones will auto connect to the transmitter and the transmitter LED indicator will turn SOLID blue. The auto-connection will take around 1-2 minutes.

If the headphones volume is too low, please insure both headphones & TV volume at the right level.

**Adjust Volume on Headphone:**  
 Volume rotation knob to raise or lower the volume. Note: when use the transmitter connection, the headphones play and pause operation function are not workable.

### Pair and connect the transmitter with the headphones again after auto-connection failed.

#### Option 1:

- Put the headphones back on the charging dock.
- Switch off the transmitter with ON/OFF switch button, then switch it on again.
- Take the headphones away from the charging dock or wear on your head, then the auto-connection will be completed in minutes. If it is not workable, you could try it again as above solution later.

### Option 2:

#### Clear the pair history/Restore factory default settings

##### Transmitter:

When the transmitter is powered on and the headphone has been taken out, press and hold the Pair Button for 10 seconds, you will see the blue LED on for 1 second, then the red LED on 1 second; now the factory re-set is completed, and the transmitter base will enter into pairing mode automatically.

##### Headphones:

When the headphones are powered off, press and hold the multifunction button for 10 seconds, the factory re-set will be completed and the headphones will enter into pairing mode automatically with a remind voice.

#### After the Factory default settings, you need to make both transmitter and headphones into pairing mode for the re-connection.

Transmitter Pairing mode: blue and red LED light flashing alternately.

When the transmitter is powered on and the headphone has been taken out, press and hold the Pair Button for 2 seconds.

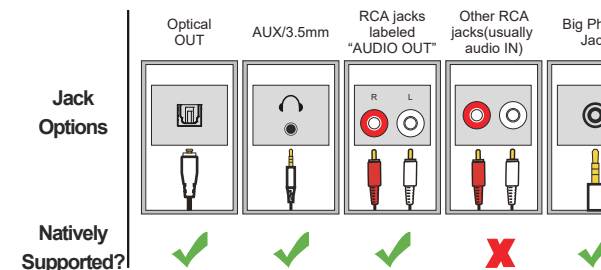

Headphones Pairing mode: blue and red LED light flashing alternately.

When the headphones is powered on, it will enter into pairing mode automatically. When the headphones is powered off, press and hold the multifunction button for 5 seconds.

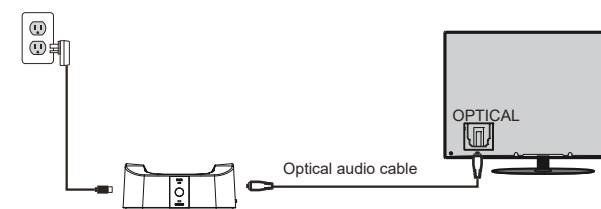

Auto-connection: keep the transmitter and headphones close to each other and wait. Once connected, the transmitter LED light will turn SOLID Blue.

### Use BTH02 with your TV

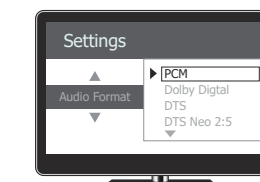

**Check your TVs output options before the set up**  
 BTH02 works with optical output, AUX 3.5mm output, and RCA (labeled "Audio OUT") output.

### TVs with OPTICAL audio out

After turning on BTH02 and connecting cables, you should be able to hear sound from your headphones; if not,  
 · Ensure your TV Speaker is set to "External Speaker".  
 · Ensure TV Audio Format is set to "PCM" or "DOLBY/DTS" is off (This is **IMPORTANT**).

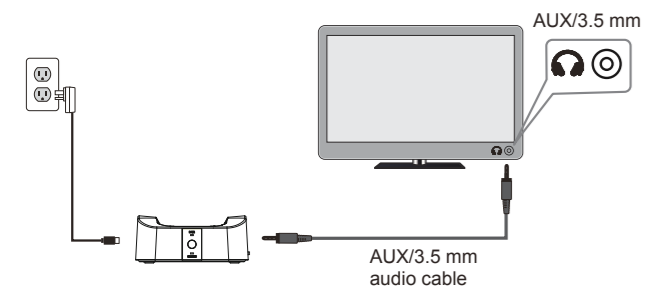

**Note:** Setting menu may be different depending on different TV brands and model.

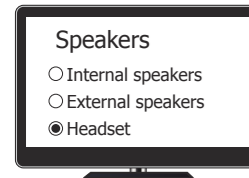

Some TVs require you to open the app (Netflix or Amazon Prime or YouTube TV) and do the setup when the movie is open in order to make it work. So please OPEN THE APP and PLAY THE MOVIE FIRST, then go into the settings menu on the TV and change it to PCM.

To ensure the TV audio out signal is valid, you can contact TV manufacture support with your TV model number and ask  
 1) how to set TV audio out to Optical;  
 2) how to set Audio Out Format to PCM.

### TVs with AUX 3.5mm Audio out

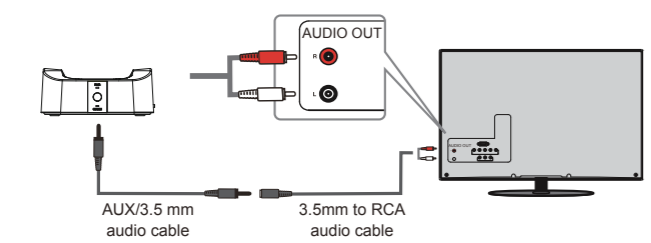

After turning on BTH02 and connecting cables, you should be able to hear sound from your headphones; if not, ensure your TV speaker is set to "Headset".

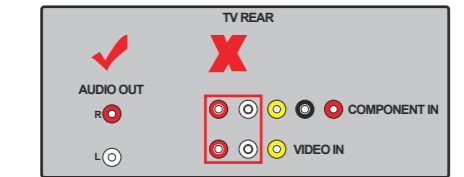

Note: Setting menu may be different depending on different TV brands and model.

### TVs with RCA audio out(Red/White ports labeled "AUDIO OUT")

After turning on BTH02 and connecting cables, you should be able to hear sound from your headphones; if not, ensure use TV Red/White ports labeled "AUDIO OUT", other Red/White ports are incorrect (This is **IMPORTANT**). Ensure your TV Speaker is set to "External Speaker".

**For AUX and RCA out, you can test the signal with the headphone by insert the audio wire directly into the headphone jack and see whether you can hear sound. If not, and need help for audio signal, you may contact TV manufacture support and ask how to set your TV audio out to the port you are using.**

### Use the headphones independently with cellphone

BTH02 headphones can be separately used with cellphone, please follow the step-by-step instruction below:

- 1) Ensure the transmitter is off.
- 2) Enter the headphones into PAIRING MODE:  
The BTH02 headphones will enter into pairing mode automatically after it is powered on or disconnected.  
Turn on: when it is powered off, press and hold the multifunction button for 5 seconds until you see the first sight of the **BLUE** light, then will enter into pairing mode automatically.  
Pairing mode: **Blue** and **Red** light flashing alternately.
- 3) Turn on bluetooth on your smart phone/tablet. Find & select "BTH02" to pair and connect.

The next time, you want to use your headphones in this way, you will need to select "BTH02" on your smart phone/tablet to reconnect.

### BTH02 Headphones operation instruction when you use with cellphone.

Power on: when it is powered off, press and hold the multifunction button for 5 seconds until you see the first sight of the **BLUE** light.

Power off: Press and hold the multifunction button for 5 seconds until you see the first of the **RED** light.  
To Answer the call: Short press the Multifunction button once.  
To Hang up the call: Short press the Multifunction button once.  
To reject a call: Hold the Multifunction button for 2 seconds to reject an incoming call.  
Pause/Resume: Press the multi-function button once.  
Volume Control: Slide the Volume rotation knob.

### Tips

#### Adjust Volume on Headphone

Volume rotation knob to raise or lower the volume.

#### After use

Place headphones on the transmitter/charging dock to recharge. The headphones will switch off automatically in this way. Please insure the headphones place the transmitter base correctly, the transmitter Led light will turn **Red** normally.

#### Pair and connect the transmitter with the headphones again after auto-connection failed.

1. Put the headphones back on the charging dock.
2. Switch off the transmitter with ON/OFF switch button, then switch it on again.
3. Take the headphones away from the charging dock or wear on your head, then the auto-connection will be completed in minutes. If it is not workable, you could try it again as above solution later.

### The sound is cut off

This is due to signal interference with the transmitter or low battery. Adjust the transmitter position to allow for a good connection between the transmitter and the headphones, and charge the headphones sufficiently.

### The Headphones is already connected to the transmitter, No sound from the Headphones while watching TV.

- 1) Please ensure your TV audio is set to "External Speaker"
- 2) If you select Optical audio input, please ensure:  
a) Ensure your TV audio format is set to "PCM", the transmitter can decode PCM, but can't decode Dolby/DTS.  
b) Ensure the 3.5mm audio cable is NOT plugged in, or the transmitter will prioritize the AUX input.
- 3) If you select AUX audio input, please ensure the transmitter is connected to the correct analog audio port on the audio sources—Plug in a pair of wired headphones/earbuds into your audio source' audio output to check if it works.
- 4) Please insure the headphones not connected with other Bluetooth devices, disable all the nearby bluetooth devices, such as your smart phone bluetooth, tablet or iPad bluetooth, etc.

### Headphone charging

When headphone battery is low, headphone indicator will flash **Red** twice every 8 seconds. You will also hear a "beep" from headphone every 5 minutes. This means it's time to place headphone on the transmitter/charging dock for charging. When headphones are properly seated on the transmitter/charging dock, the CHARGE indicator will light up

### Better reception

BTH02 work range reaches up to 100 feet, it may varies due to the environment. If your headphones are picking up noise or interference, move closer to the transmitter. Even within the work range, there may be some "dead spots" where the RF signal cannot be received. This issue is inherent with RF signals and does not indicate a faulty product. Just slightly move the transmitter and the "dead spot" can be corrected.

### Suggested care & Maintenance

- Please power off when not in use or before storing.
- Please keep away from excessive heat and humidity.
- Do not use chemicals or detergents to clean this product.
- Extreme temperatures can shorten lifespan of internal components.

### Warranty & Customer Support

For questions, assistance, support, or warranty claims, please contact us with E-mail address as follows: [contact@besign-tech.com](mailto:contact@besign-tech.com)

**Red.** This means headphones are recharging properly. If headphones are not properly placed, the CHARGE indicator will not light up. Once the charging is complete, the **Red** CHARGE LED on transmitter/charging dock will turn **Green**. There is no need to remove headphone from transmitter/charging dock.

### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to the receiver which is connected.
- Consult the dealer or an experienced radio/TV technician for help

### Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

 **WEEE Compliance**  
Correct Disposal of This Product(Waste Electrical&Electronic Equipment)(Applicable in countries with separate collection systems)

This Marking shown on the product or its literature, indicate that it should not be disposed with other household wastes at the end of their working life . To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household user should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contact. This product should not be mixed with other commercial wastes for disposal. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
