

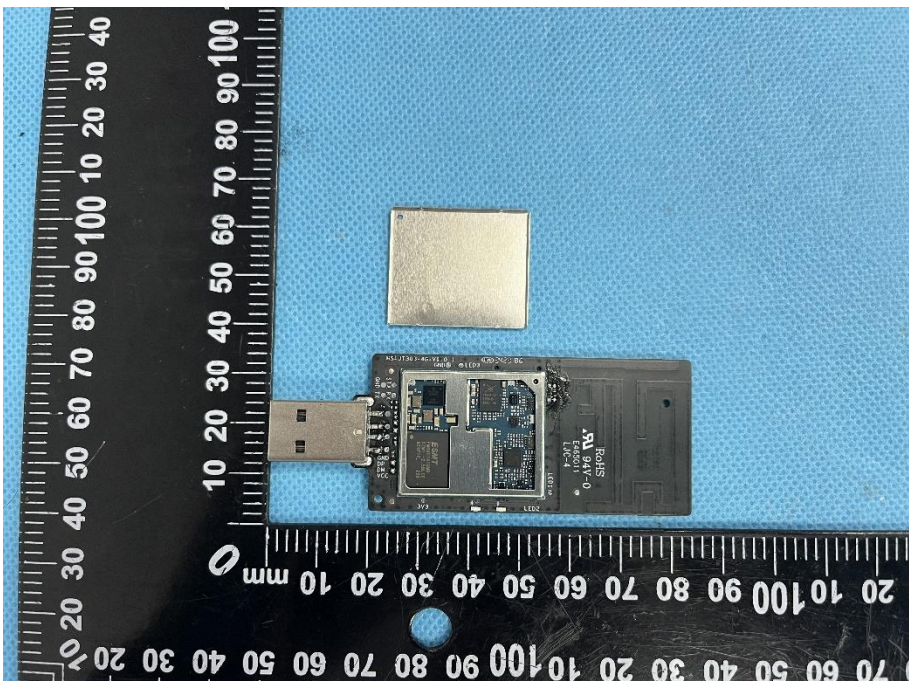

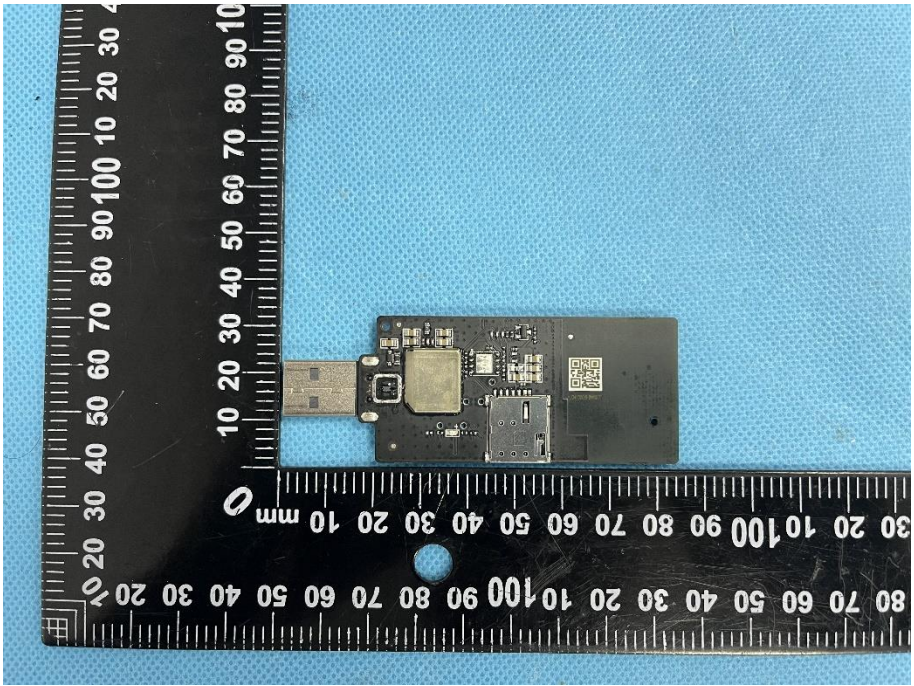

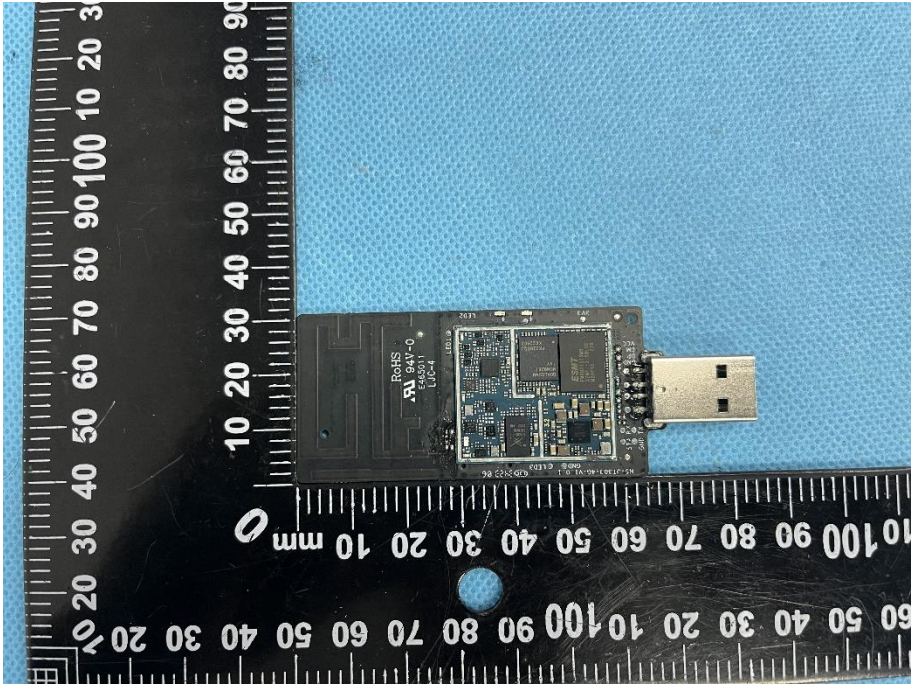

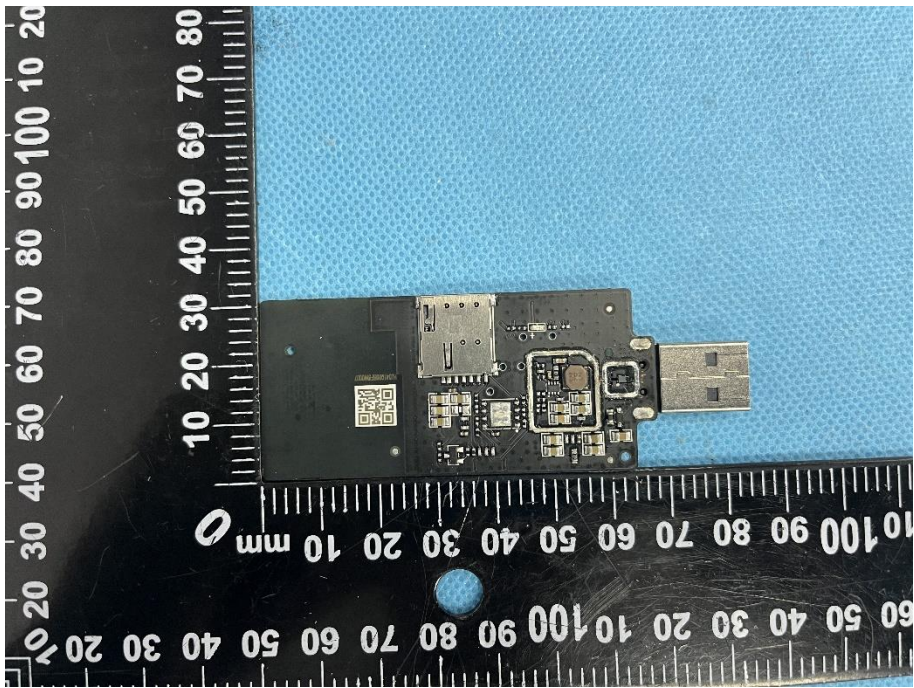

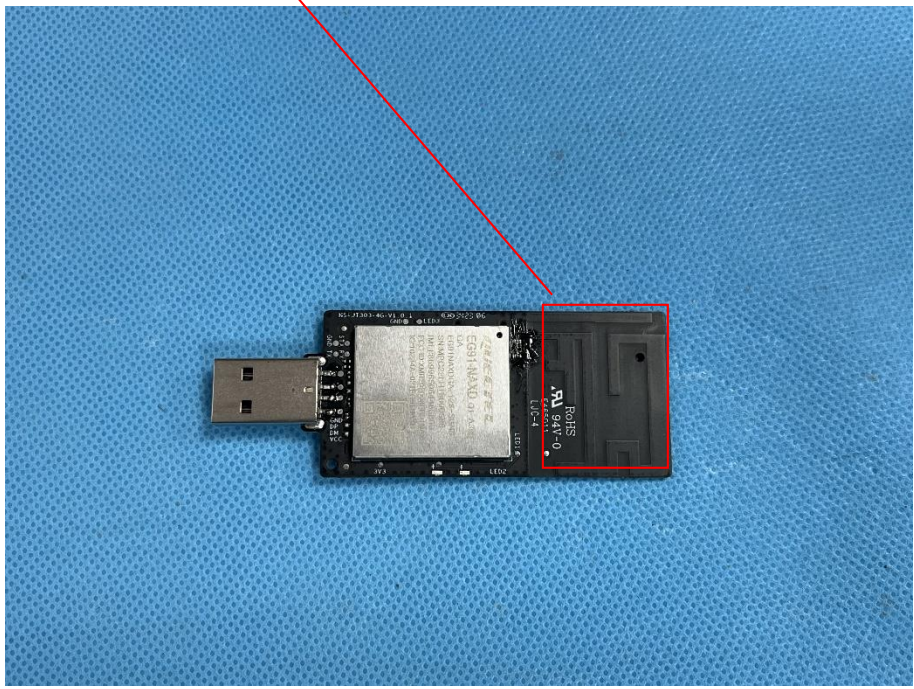

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the disassembled components of an EUT (External Unit Terminal) housing. On the left is a black cylindrical housing. In the center is a printed circuit board (PCB) with a USB connector on the left and a gold-colored component on the right. To the right of the PCB is a black plastic cap. A black ruler with white markings is placed horizontally below the components for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.
<p><b>Solder Board-Component View 1</b></p>	 A photograph showing a solder board component. The component is a small PCB with a USB connector on the left and a gold-colored component on the right. A black ruler with white markings is placed horizontally below the component for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.

<p><b>Solder Board-Component View 2</b></p>	 <p>A photograph showing a small, rectangular solder board component with a USB connector on the left side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm. The component has various electronic components, including a microcontroller, capacitors, and a USB connector.</p>
<p><b>Solder Board-Component View 3</b></p>	 <p>A photograph showing the same solder board component from a different perspective. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm. The component has various electronic components, including a microcontroller, capacitors, and a USB connector. The text "RoHS", "AVL 84V-0", and "LUC-4" is visible on the component.</p>

<p><b>Solder Board-Component View 4</b></p>	 A photograph of a USB dongle component on a blue textured surface. A black ruler is placed below the component, showing measurements in millimeters. The component is a small black PCB with a USB connector on the right side and various electronic components on the left. A QR code is visible on the PCB.
<p><b>Antenna View</b></p>	<p>LTE Antenna</p>  A photograph of the same USB dongle component on a blue textured surface. A red box highlights the antenna area on the right side of the component. A red line points from the text 'LTE Antenna' to this box. The antenna area contains a small black component with 'RoHS' and 'RA 9411-0' printed on it. The component also has 'L101' and 'L102' labels near the antenna area.
