

atomi smart

# Let's get started!

Quick Start Guide

v1.05/21

1

## Get the app

Download the Atomi Smart app from the App Store or Google Play.

2

## Register

Follow the on-screen instructions and register an account.

3

## Add your Smart Bridge

Press "Add Device" or the "+" sign and choose the Smart Bridge to install from the device list.

4

### Turn your phone's Bluetooth ON

Connect the Smart Bridge to the USB wall charger and plug it into the outlet. Press "Continue" on the Atomi Smart app.

For a smooth connection, do not add the Smart Spot Lights now. You will be prompted to do so on Step 7.

5

### Select the right network

Enter your password and "Continue".

Make sure you're connected to a 2.4GHz WiFi network. (Atomi Smart doesn't connect to 5GHz networks).

6

### Turn on the Smart Spot Lights

Then open the Smart Bridge device that you added on the Atomi Smart app home screen.

7

### Add your Smart Spot Lights

Press "Add new device". If you have already added the device on Step 4, press "Add existing device". Follow the on-screen instructions.

## Troubleshooting

### **The app can't find my smart device.**

Please reset your device.

For Smart Bridge: Make sure that your phone's Bluetooth is turned ON and the permission settings are allowing the app to connect via Bluetooth.

For Smart Spot Lights: Press and hold the "Power" button until the light starts flashing to reset your device.

### **My network doesn't appear in the Atomi Smart app.**

Use your smartphone to confirm that you have at least two WiFi bars in the vicinity of your Atomi Smart device. If not, move your Atomi Smart device closer to your router. (The list will refresh every 10 seconds).

### **Cannot connect to my network.**

Make sure that you have entered the correct WiFi password during setup. Check if there are problems with your internet connection, if the WiFi signal is too weak, reset your WiFi router and try again.

### **My Atomi Smart device appears as "Unavailable" in the app.**

Refresh the device list.

### **I just replaced my router.**

If you replace your router, you will need to reset your devices and add them again to the app.

### **Can the cords be buried?**

Yes, cords can be buried.

### **How to control multiple lights simultaneously?**

- Open the Atomi Smart app and select one of the spot lights that you've added.
- Press the 'Edit' button on the top-right corner of the screen.
- Press 'Create Group' and select your lights.
- Press 'Save'. You can now control your spot lights simultaneously.

**FCC Warning Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
