SAFETY INSTRUCTION

IMPORTANT
READ ALL THE SAFETY INFORMATION AND INSTRUCTIONS BEFORE INSTALLING OR SERVICING THIS PRODUCT. KEEP THIS MANUAL FOR REFERENCE.

WARNING
RISK OF ELECTRIC SHOCK

- Sockets used to power smart string lights should comply with all national and local electrical codes.
- If you are unsure of compliance requirements please consult your local electrician.
- Do not operate the bulbs without tightening string lights, making sure to unplug the smart string lights during installation to avoid damage to the power cord and lamp assembly during installation.
- Do not submerge when using on GFCI protection circuits.
- Do not use in water. Do not use extension cords or places where water may accumulate near water. Take care to keep the bulb at least 1 foot from the surface of the water. Keep the plug and socket dry.
- Do not install the smart light string in a position where you can step on it. Not be allowed for children to play with smart string lights, should be installed out of reach of children.
- ETL recommends testing GFCI circuits and outlets monthly to ensure proper operation.
- Regularly check the smart string lights for physical damage or other damage caused by outdoor exposure to components, and replace any damaged smart string lights components in time.

RISK OF FIRES

- Smart String Lights are designed to be mounted with their individual keyhole mounting feature.
- Do not mount Smart String Lights by using the main electrical cord or the individual drop cords.

SAFETY INSTRUCTION

- Smart String Lights are designed to have limited link ability by using their electrical plugs and receptacles.
- Do not mount Smart String Lights in any position where the bulb is facing up.
- Do not allow the LED lamp assemblies to be in contact with combustible materials.
- LED lamp assemblies should hang freely and not be susceptible to repetitive damage caused by environmental conditions such as wind, rain, not intended for installation in ceilings, soffits, cabinets, attics, or other enclosed spaces.

CAUTION
Suitable for outdoor/indoor use only.

- DO NOT IMMEDIATELY IN WATER.
- DO NOT EXCEED RATED CAPACITY

Installation Steps

Steps 1: Initial Setup

- Carefully unpack Smart String Lights from the package.
- Before installing, plug the Smart String Lights into an outlet to ensure all lights work properly.
- Before hanging up, please test to confirm the Smart string lights can be connected to the APP.

IMPORTANT: Please Unplug the Smart String Lights prior to mounting.

Steps 4: Plug - In

Plug Addlon Smart String Lights into any standard outlet.

Notes:

- After power on, the light bulbs will automatically enter the connecting state;
- If there is no connection after 3 minutes, the indicator lights will remain on. If you want to add a device at this time, you need to press and hold the "Button" on the controller for about 6 seconds until the lights blink rapidly.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.
