INTRODUCTION

Thanks for choosing XMCOSY+ Low Voltage Outdoor Spotlights. Please read the user manual carefully and keep it for future reference.

SAFETY INSTRUCTIONS

Read and follow all safety instructions before installing the low voltage outdoor spotlights.

●Sockets used to power outdoor spotlights should comply with all national and local electrical codes. If you are unsure of compliance requirements, please consult your local electrician.

●Do not use in water. Please connect power cords in deep together and tighten the protective cover. Especially for the interface at the end, please be sure to put on the protective cover. Keep the plug and socket dry.

●Please keep children away from these lights.

●Keep lights away from flammables and fire sources.

●Avoid placing the lights near potentially dangerous sources.

DO NOT EXCEED RATED CAPACITY.

service.2@xmcosy.com

ASSEMBLE

Step - 1

Connect the light pole and ground stake.

Step - 2

Connect the light cables in turn.

- Align the positioning point.
- Tighten connectors.
- Tighten the waterproof cover.

Notes:
1. If the connectors are not aligned, the color of the spotlights will be different or be inconsistent with the color setting in the APP.
2. Without the waterproof cover, the light cable may submerge in water, which will cause a short circuit.

ASSEMBLE

Step - 3

Connect the installed spotlights and the light cables in turn.

Step - 4

- Connect the extension power cable to the light cable & power adapter.
- Plug the power adapter into the power outlet.

ADJUSTABLE SPOTLIGHTS

Rotating Head
Each spotlight can be freely adjusted within 105°. Rotate the handle screw to adjust the direction of the lamp head. You can adjust the lighting effect you want according to the needs of the scene.

Note: Beware of screws falling out.

Extendable Pole
Rotating to loosen the connector allows the pole to be extended.

BUTTON FUNCTION INTRODUCTION

Button Function Introduction:

- Long press - Enter the APP connection & network mode.**
Long press the button for 5S, the light flashes quickly, and the product enters the distribution network mode. (When the product is used for the first time, it will automatically enter the network distribution state after connecting to the power supply, without pressing any buttons.)
- Short press - ON/OFF & Change scene modes**
6 modes/4 kinds of warm white and 4 kinds of color light)
Short pressing the button, the mode changes in turn as follows:
• ON(Gorgeous)
• Good night
• Reading
• Working
• Leisure
• Grassland
• Colorful
• Dazzling
• Gorgeous
• OFF

For more scene modes and functions of the product, please connect to the XMCOSY APP.

SERVICE & WARRANTY

Not Satisfied?
If there is any problem with our product while using, Please Contact service.2@xmcosy.com

We will provide you with a 100% Satisfied Solution!

Satisfied?
We are glad that you didn't encounter any problems with our low voltage outdoor spotlights. XMCOSY+ is committed to providing better products and services. Please feel free to contact us if you have any problems with the product.

Scan to email

APP DOWNLOAD & REGISTRATION

Step 1: Download the XMCOSY App from App Store or Google Play.

Scan the QR code to download

APP DOWNLOAD & REGISTRATION

Step 2: Register

- Enter your mobile phone number or email address.
- Enter the verification code.

APP DOWNLOAD & REGISTRATION

- Create a password and Log in the App.
- Please enable the XMCOSY App to get your Bluetooth while using the App.

DISTRIBUTION NETWORK & APP CONNECTION

Step 1: Plug - In
Plug XMCOSY+ smart outdoor spotlights power adapter into any standard outlet.

Notes:
1. After power on, the light will automatically enter the connecting state (fast blinking).
2. If there is no connection after 3 minutes, the indicator lights will remain on. If you want to add a device at this time, you need to press and hold the power button on the controller for about 5 to 7 seconds until the lights blink rapidly.

DISTRIBUTION NETWORK & APP CONNECTION

Step 2: Register

- Click the "+" in the home page upper right corner. The devices in the connecting state will be displayed at the top of the page. Click "Add".
- Click the device you want to add and please make sure that the network you connected is 2.4GHz.

DISTRIBUTION NETWORK & APP CONNECTION

- Fill in your 2.4GHz network name and password, then click "Next".
- The product starts to connect until it is 100% completed.

Please keep the router, mobile phone, and product as close as possible to ensure a good reception signal.

DISTRIBUTION NETWORK & APP CONNECTION

5. After you edit the product name and save it, click "Done" at the top right.

Congratulation!
Now you can use XMCOSY App to control your spotlights.

Tips:
1. The device name will be used again when paired to Amazon Alexa & Google Home for voice control.
2. The device name is suggested to consist of English words and Arabic numerals, please do not use special characters.

APP FUNCTIONS

WARM WHITE MODE& COLOR MODE
You can choose to turn on the spotlights in color light or warm white light.

RGB Color Mode

- * Color Wheel -** Slide the color wheel up and down to adjust the color of the lights from a broad spectrum of colors. Drag the button on the wheel from right to left to adjust the color temperature.

ALEXA PAIRING INSTRUCTION

- Download the Amazon Alexa APP
- Search the keywords "Amazon Alexa" in the App Store for iOS device and in the Google Play for Android device.
- Sign in or register a new account
- Pair the Amazon Alexa APP to Amazon Echo Device (follow the Amazon Echo User Manual)
- Log in your Amazon Alexa APP

Important tips: please make sure the "XMCOSY" app, Amazon Alexa APP "Amazon Echo" are connected to the same Wi-Fi network.

ALEXA PAIRING INSTRUCTION

- Enable "XMCOSY" skill in Alexa APP
- Click "Skills & Games" in the MORE MENU on the Alexa APP's home page.

ALEXA PAIRING INSTRUCTION

b. In the popup page, input "xmcosy" in the search bar, click "XMCOSY" in the search result and click "ENABLE TO USE" in the popup page to enable the skills.

ALEXA PAIRING INSTRUCTION

c. Click "Agree and link", then "Your XMCOSY account has been successfully linked".

ALEXA PAIRING INSTRUCTION

6. Enjoy Amazon Alexa Control

Now with Amazon Alexa, you can take control the outdoor spotlights by asking it to change colors, turn lights on and off by using simple commands.

For example, using these Alexa commands below:
"Alexa, Turn on/off (Specific light)"
"Alexa, Set the (Specific light) to green"
"Alexa, Set the (Specific light) to red"
"Alexa, (Specific light) lights fifty"
"Alexa, (Specific light) out"

Tips:
(Specific light) is the device name you named on XMCOSY APP.

GOOGLE ASSISTANT PAIRING INSTRUCTION

- Download the APP
- Search "Google Home" in the App Store for iOS device and in the Google Play for Android device to install.
- Sign in or register a new account
- Pair the Google Home APP to Google Home Device (follow the on-screen steps)
- Link XMCOSY account in set up devices
 - Click the "+" icon in the upper left corner of home page, then click "set up device".

Important tips: please make sure the XMCOSY app, Google Home APP and Google Home devices are connected to the same Wi-Fi network.

GOOGLE ASSISTANT PAIRING INSTRUCTION

b. Click "Works with Google"

c. Input "XMCOSY" in the search bar.

d. In the new window, select your XMCOSY account's region, Input your XMCOSY account and password, then click "Next Step" and "Authorize".

GOOGLE ASSISTANT PAIRING INSTRUCTION

5. Enjoy Google Home Control

Now you can take control the smart spotlights through Google Home by asking it to change colors, turn lights on and off by using simple commands.

For example, using these voice commands below:
"Google, Turn on/off (Specific light)"
"Google, Set the (Specific light) to green"
"Google, Set the (Specific light) to red"
"Google, (Specific light) lights fifty"
"Google, (Specific light) out"

Tips:
(Specific light) is the device name you named on XMCOSY APP.

TROUBLESHOOTING

Question	Solutions
1. Why the colors of lights are different or can't respond in the APP?	The cables are connected incorrectly. Please check all connectors and connect them by aligning the point. (Include the connection to the power controller.)
2. Could the power adapter hold more than 6 lights?	No. The power adapter is 36W max and only can hold 6 lights in total. For more lights connecting, please contact XMCOSY+ Customer Service Team [service.2@xmcosy.com]
3. The lights can't connect to the APP.	1. Please update the APP to the newest version. 2. Please turn on Bluetooth, 2.4GHz Wi-Fi, mobile data, and locations when connecting the devices. 3. Please try to connect the phone with a hot spot rather than Wi-Fi to see whether it's the problem with Wi-Fi. 4. If the routing security level is very high or incompatible with the APP, it will cause the problem of can't connecting to the APP. Please lower the security level of your router to make it compatible with XMCOSY APP. Or send us your router model for further solutions. The wall penetration capability of 5.0GHz is weaker than 2.4GHz, which means that the outdoor signal of 5.0GHz is worse than 2.4GHz. Therefore, most smart devices support 2.4GHz networks or dual-frequency networks of 2.4GHz and 5.0GHz. You can log in to the management page of your router and change the SSIDs of the 2.4 GHz and 5 GHz networks to differentiate them.
4. Home network is 5GHz.
