Thank You Button
User Guide

To us, every thumbs up moment is an opportunity to add a little bit of brightness into each other's day. Use EASAY Thank You Button to spread some gratitude on the road.

Get Road Ready

The suction cup attachment can only be used in an SUV, car, van, truck or minivan. The Thank You Button is not designed to be used on motorcycles, mopeds, scooters or pushbikes.

Replace Your Batteries

NOTE: This product does not contain batteries, please purchase additional batteries before use.

Remove the battery cover from the back, insert three AAA batteries and clip the cover into place.

Slide the back cover off, insert your coin cell battery and replace the back cover.

Ensure you insert batteries into your device correctly with the + (plus) and - (minus) terminals aligned. Make sure that the correct size and type of battery is used. The Thumbs Up Light uses three 1.5volt AAA batteries and the Thank You Button uses a CR2032 3volt lithium coin cell battery. Use alkaline batteries instead of carbon-zinc batteries.

If it is not used for a long time, take out the batteries to avoid battery leakage. Recycle used batteries at your nearest recycling center.

DO

Do use the correct fitting for your vehicle type. Do read these instructions before using your Thank You Button and save them for future reference.

Do be mindful that tinted back windows may affect the brightness and visibility of your Thumbs Up Light.

Do ensure your Thumbs Up Light is positioned in a manner that does not obstruct the driver's view.

Do periodically check to ensure your Thumbs Up Light is firmly fixed in place.

Do use inside your car as this product is not water-proof.

Do say thanks on the road by using your EASAY Thank You Button.

DON'T

Don't tamper with any internal components. Don't use on the exterior of your vehicle. Don't subject the unit to excessive smoke, dust, mechanical vibration or shock.

Getting Started

1. Unbox your Thank You Button.

2. Position your Thumbs Up Light in the rear window. The lower left hand corner is an ideal position.

It is important to position the Thumbs Up Light in such a way that it does not obstruct the driver's view.

3. Clip your Thank You Button into your air vent in an easy-to-access position.
