To whom it may concern,

We would like to submit for Class 2 Permissive Change Certification to FCC: VPYCMABZ.

We affirm that we have not altered the functionality of the module in any way that would affect the RF beyond that of the original FCC filing and testing. We have conformed to all requirements with respect to the module integration in accordance with the Murata integration manual. The chip antenna integration is of the type, gain and style in full accordance with the Murata integration manual.

1. The transmitter module has not changed and is affixed to a PCB and chip antenna.
2. The module is enclosed in a weather resistant enclosure.

Please find in the following application all related documentation to support this Class 2 Permissive Change Certification.

We would appreciate your prompt attention to the submittal.
