

# User Manual

Thank you for purchasing the 4 in 1 Wireless Charging Station Dock, please read this manual carefully before using this product.

## FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FEATURES

- Support PD & QC3.0 Fast Charge Protocol
- Supports all Qi standard wireless phone charging
- It can charge your phone, AirPods and Apple Watch at the same time
- Support USB output, output 5V/2A
- Touch control small LED light
- The earphone charging compartment supports earphone charging as well as 5W mobile phone charging

## HOW TO USE

## FEATURES

- Support PD & QC3.0 Fast Charge Protocol
- Supports all Qi standard wireless phone charging
- It can charge your phone, AirPods and Apple Watch at the same time
- Support USB output, output 5V/2A
- Touch control small LED light
- The earphone charging compartment supports earphone charging as well as 5W mobile phone charging

## HOW TO USE

1. Hold the bracket upright

2. silicone groove, with front and back side, can be sent two watches chargers at the same time.

3. Press down the bracket and fold up

## Support PD & QC3.0 Fast Charge Protocol

4 in 1 Wireless Charger \*1  
Type-c Cable \*1  
User Manual \*1  
With watch charger \*1

Input voltage and current: 9V/12V 4A ( MAX ).  
Wireless charging output voltage and current: 9V/1A 9V/1.5A.  
The output power of Airpods wireless charging: 3W.  
Apple Watch wireless charging (external) output power: 1~3W

MADE IN CHINA
