

E100

TRUE WIRELESS STEREO EARPHONES
USER MANUAL

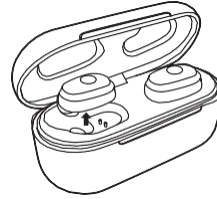

OVERVIEW

Choose Ear TIPS

It is recommended you try middle EarTips first, it fits most people

(For first time pairing)

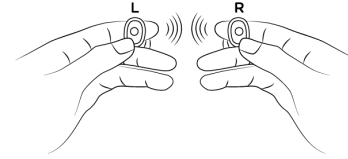

Take out both two Earphones, then re-insert them into the case to activate the earphones

Notes: If Earphones fail to be charged, please charge the case via USB cable (for details, please follow the below steps)

How to Pair

Put both Earphones into charging case to activate them, then take out both Earphones will auto power on and pair with each other. After the LED for left Earphone turns blue and red, right Earphone turns blue. Search E100 on mobile phone and connect it.

(Notes: If fail to connect, please try the following steps by hands.)

- Put the earphone back to the charging case to charging mode, LED solid red
- Press and hold on both earphones for 8s, until the LED blue blink 4 times then back to LED red
- Take them out, two earphones will auto pair with each other

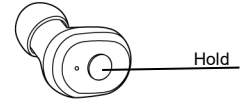

Two Earphones will auto pair with each other. When LED on right Earphone turns blue and red, left Earphone turns blue, it means both sides connected successfully.

Search for E100 on mobile phone and connect it

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
