

Shenyang Sanfeng Intelligent Technology Co., Ltd  
No. 10-1 (1-28-12), Hunnan West Road, Hunnan District, Shenyang, Liaoning,  
110000 China

## Statement

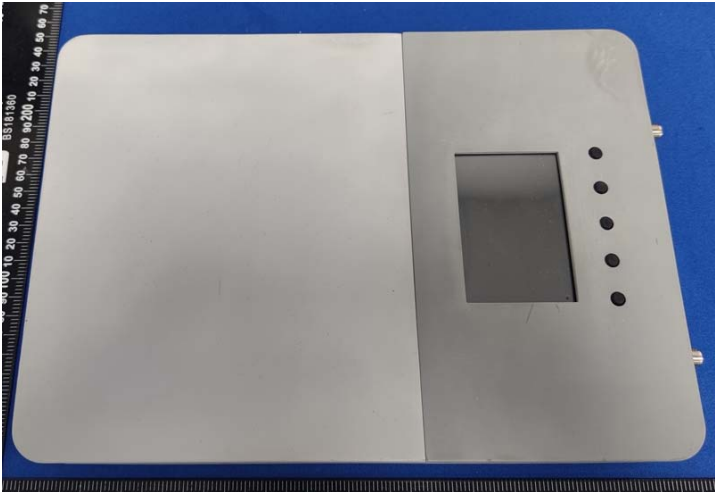

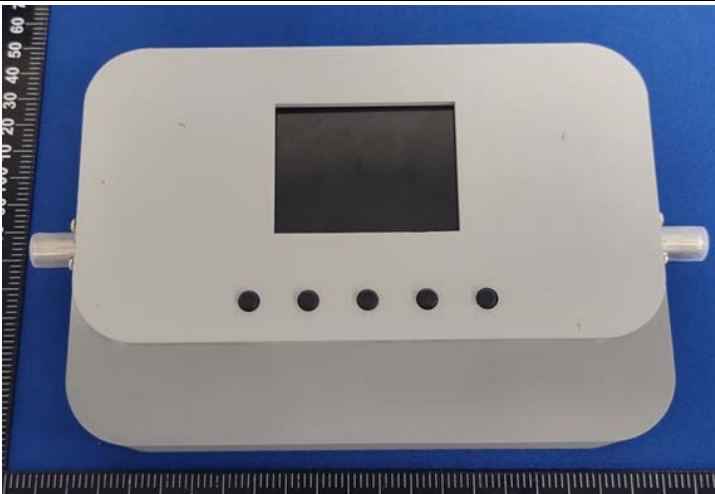

Product: Cell Signal Booster

Model: SF005A

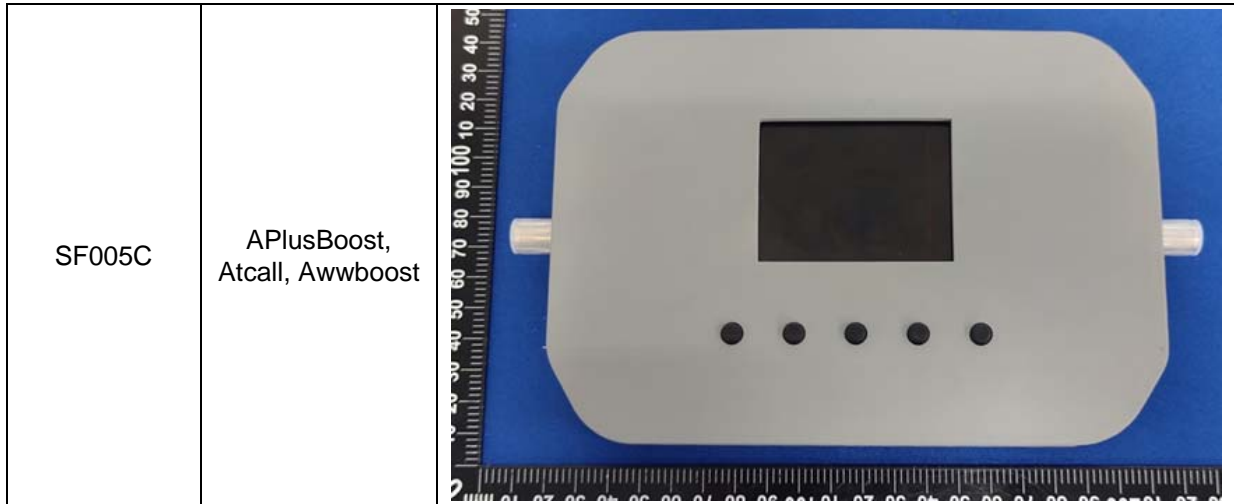

Additional Model: SF005B, SF005C

Trademark: APlusBoost, Atcall, Awwboost

We hereby state that SF005A, SF005B, and SF005C are identical in terms of circuit and PCB layout. The difference is that SF005A has added an integrated built-in antenna to the Inside port, but this antenna cannot work simultaneously with the external antenna, while SF005B and SF005C do not have the integrated built-in antenna listed in the antenna supporting documents, and their appearance and color are also different. Therefore, the test data of SF005A can represent the remaining models.

Model	Trademark	Photo
SF005A	APlusBoost, Atcall, Awwboost	 A photograph of the SF005A cell signal booster. The device is white with a black LCD screen on the right side. It has several ports and buttons on the right edge. A ruler is visible on the left side of the device for scale.
SF005B	APlusBoost, Atcall, Awwboost	 A photograph of the SF005B cell signal booster. The device is white with a black LCD screen in the center. It has two ports on the left and right sides and five buttons below the screen. A ruler is visible on the left side of the device for scale.
