Packing List 1

Product Overview 2

Product Overview 3

Important Safety Information 4

WARNING
Not suitable for aggressive dogs. If your dog is prone to aggressive behavior, do not use this product. Aggressive dogs can cause severe injury or even death to their owner and others. Consult with your veterinarian or certified trainer if you are unsure if this product is safe for your dog.

CAUTION
To prevent injury from improper use, please carefully read the user manual before using this product. Proper collar fit is crucial, as leaving the collar on for an extended period or making it too tight can lead to skin damage. This can range from mild redness to pressure ulcers, also known as bedsores.

- Do not leave the receiver on your dog for more than 12 hours a day to prevent discomfort or injury.
- If possible, reposition the receiver every 4-2 hours to avoid excessive pressure on one area.
- Always check the fit of the collar and refer to the instructions in the manual to ensure proper use.

Important Safety Information 5

- Do not attach a leash to the electronic collar as it may cause excessive pressure on the contacts.
- When using a separate collar for a leash, avoid putting pressure on the electronic collar.
- To maintain hygiene, clean the dog's neck area and collar contacts weekly using a damp cloth.
- Check the contact area daily for any signs of rash or sores.
- Discontinue use of the collar if any such issues arise.
- Only use an adapter with an output of 5V or less to charge the collar.

How to Charge 6

Charging Instructions (2h charging time):
When charging is completed, the battery icon will stop flashing and show a full status. Charging takes about 2 hours.

Please wear the silicone cover after charging.

How to Wear a Collar 7

Turn on/off the collar

- Long press the power button for 2s to turn off the collar.
- The display will show all the icons for 2s and go off when power on/off.

Operating Guide 9

Operation of Beep Mode

Beep command: Press the beep key, the collar beeps once, and the volume is immediately off.

Operation of Vibration Mode

Vibration command: Press the vibration key, the collar vibrates once.

How to adjust the level

Press the M key to switch to the vibration mode, and press the "+" button to increase or decrease the intensity.

Operating Guide 10

Operation of Shock Mode

Shock command: Press the shock key, the collar generates an e-shock once.

How to adjust the level

Simply press the "+" button to increase or decrease the intensity level.

How to test the e-shock function:

- Attach the test board to the 7 contact points of the collar.
- Press the e-shock button on the remote, the test board will light up if the shock functions.

Channel Selection & Pair 11

How to Select the Channel

The device supports training 2 dogs with only 1 remote. Simply press the channel select button to switch between the 2 dogs.

How to pair the collar and the remote

The remote and the collar in the package are already paired at the factory. When you need to add a new collar to the remote, please follow the steps to match the collar to the remote:

- Turn on the collar and the remote.
- Press the e-shock button on the collar twice quickly, and all the icons on the collar will start flashing.
- Press the Beep/Vibration/Static button on the remote to pair it with the collar.
- When you hear a beep, the pair is complete.

Safety Lock 12

Keypad: Lock or unlock.

When in lock mode, all keys on the remote will be disabled and will not react when you press. To activate the keys, please slide downward to unlock.

Troubleshooting 13

Q1: When I press the beep, vibration, or e-shock button, my pet is not reacting/responding.

- Check whether the receiver collar is on.
- Check if the remote or the collar is in low battery level.
- Use the test board to test whether the e-shock functions normally.
- Adjust the intensity level.
- Make sure that the contact points of the receiver collar are touching your dog's skin closely.

Troubleshooting 14

Q2: Remote/receiver does not response.

- Check if the Receiver Collar is on.
- Check if the collar or the remote is in low battery.
- Check whether the remote and the collar are paired.

Certification Statements 16

CE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- The device may not cause harmful interference.
- The device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the user may void the warranty and void the user's authority to operate the equipment.

Note: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy, and it may cause interference with the operations of other equipment. If you do not wish to cause interference to other equipment, you may wish to consult the manufacturer for advice on reducing the interference.

However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Certification Statements 17

CE

The responsible persons under the user responsibility for the product comply with the latest requirements of the CE (EMC) and RoHS (2011/65/EU). Without the approval of our company, the device is not permitted to be sold or modified to be sold in any other country. If you have any questions, please refer to the following information.

Recycling Information/Battery Disposal

Please observe the regulations for electronic and electrical devices to be disposed of in the respective country. In some countries or regions, this device must be recycled. If you have any questions, please refer to the local authorities or manufacturers for more information. For more recycling information, please refer to local regulations.
