

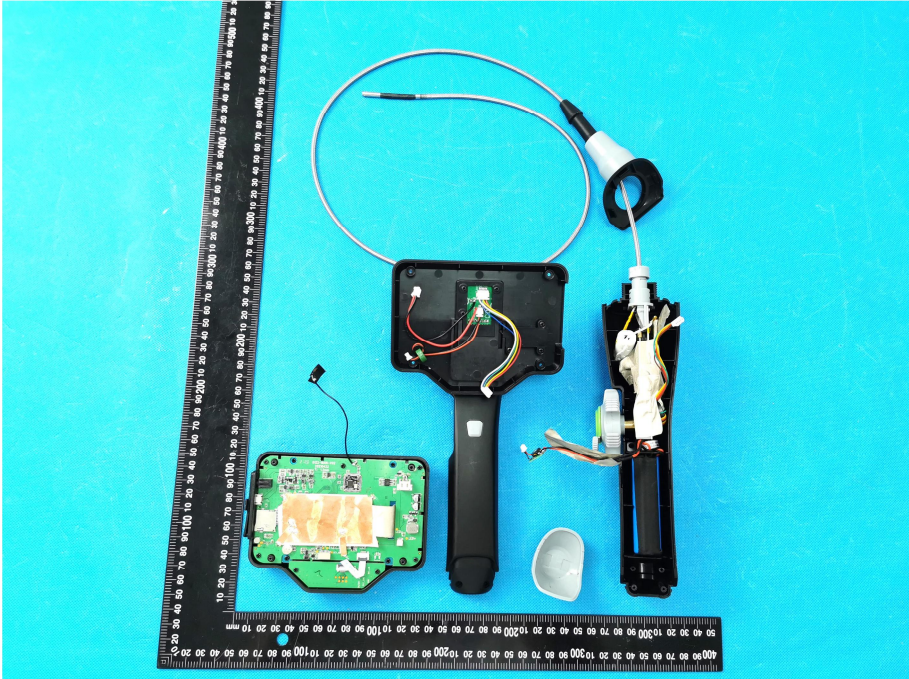

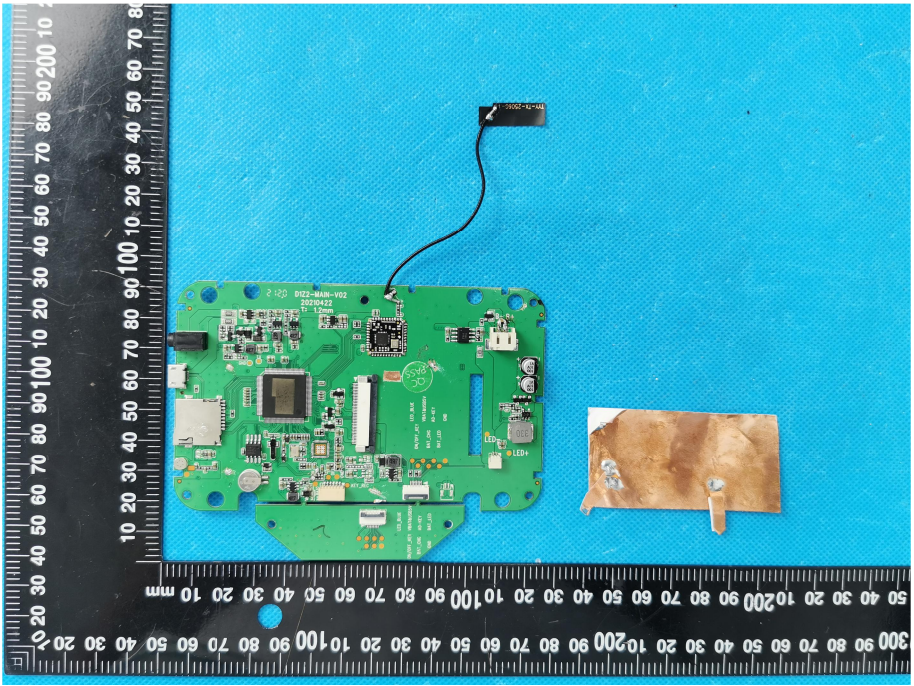

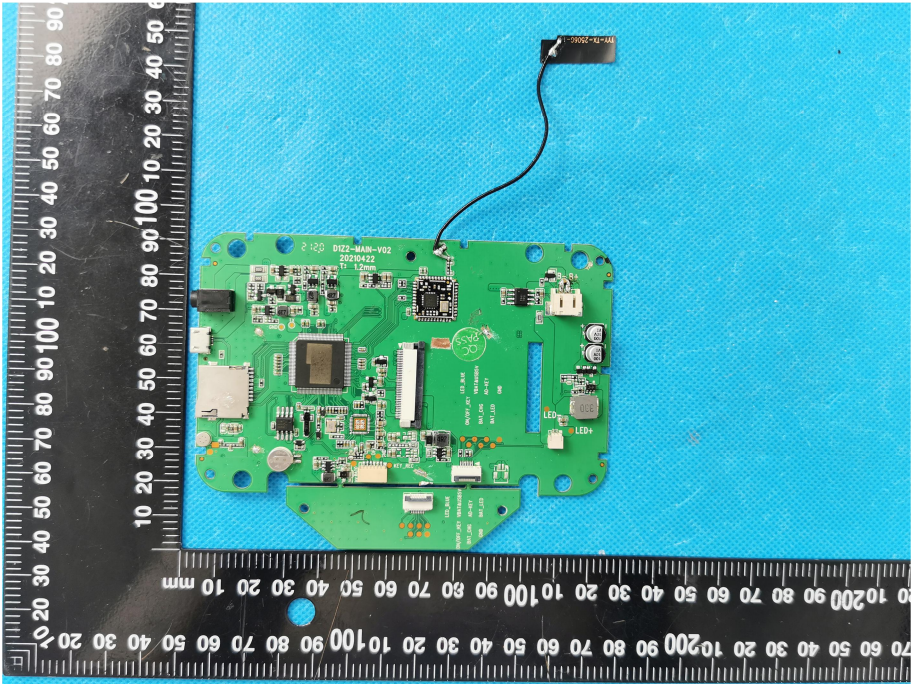

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the disassembled components of the EUT. On the left is a green printed circuit board (PCB) with various electronic components and a large copper pad. In the center is the black plastic housing with a handle. To the right is the internal assembly, including a battery pack, a speaker, and other internal components. A black ruler is placed vertically on the left side of the components for scale.</p>
<p>Solder Board-Component View 1</p>	 <p>This is a close-up photograph of the green PCB component. It shows various electronic components, including a microcontroller, capacitors, and a large copper pad. A black ruler is placed vertically on the left side of the component for scale.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) with various electronic components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. A small black component is connected to the board by a thin black wire. To the right of the board, there is a small piece of brown tape with a component attached. The PCB has several labels, including 'D122-MAN-V02' and '20210422'.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of the same green PCB as in View 2, showing a different component or area. It is placed on the same blue surface next to the same ruler. The black wire and the brown tape are not visible in this view. The PCB labels 'D122-MAN-V02' and '20210422' are clearly visible.</p>
