

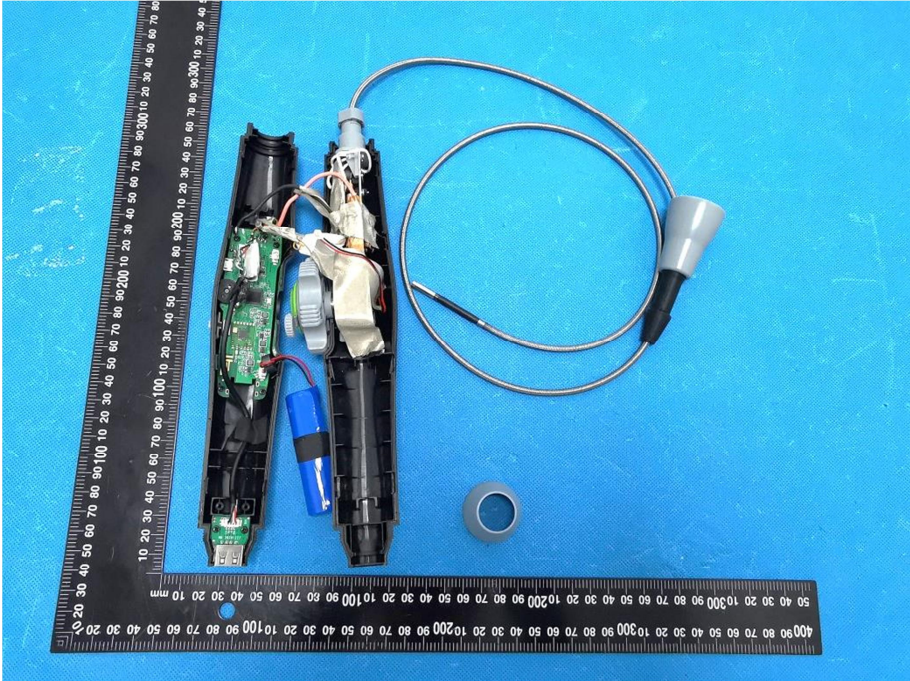

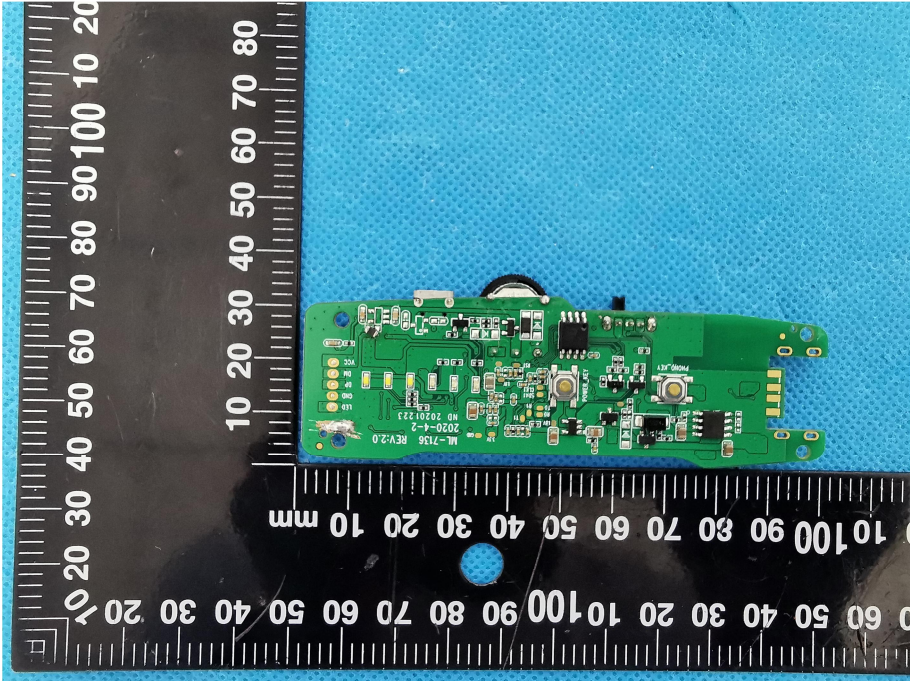

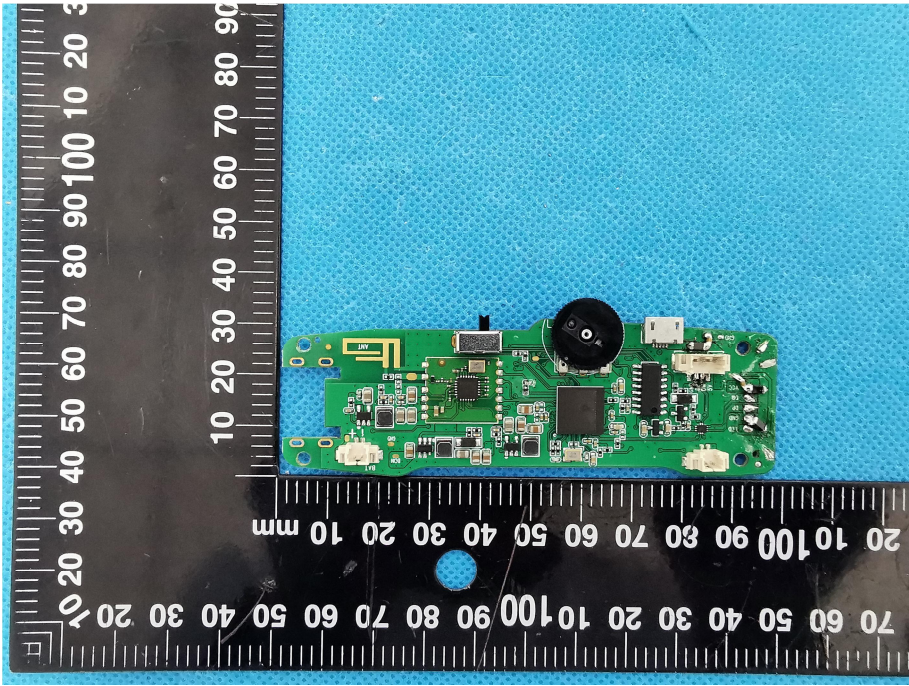

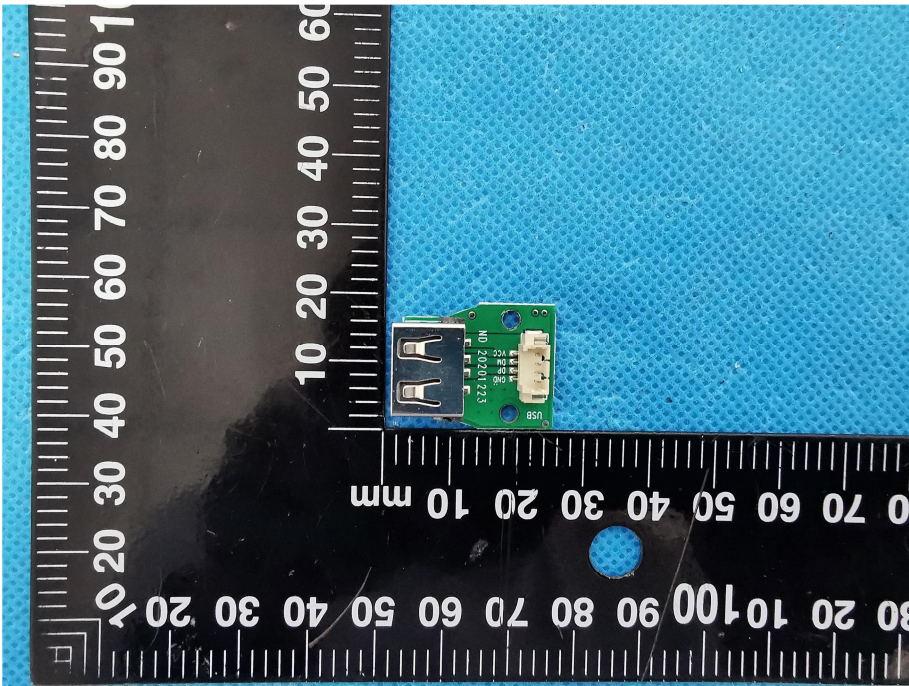

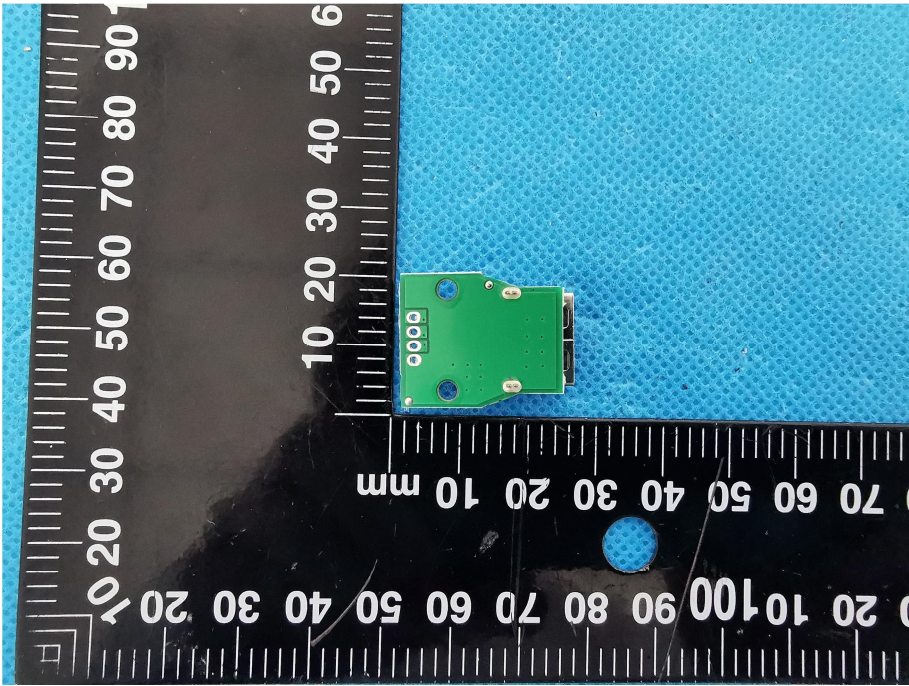

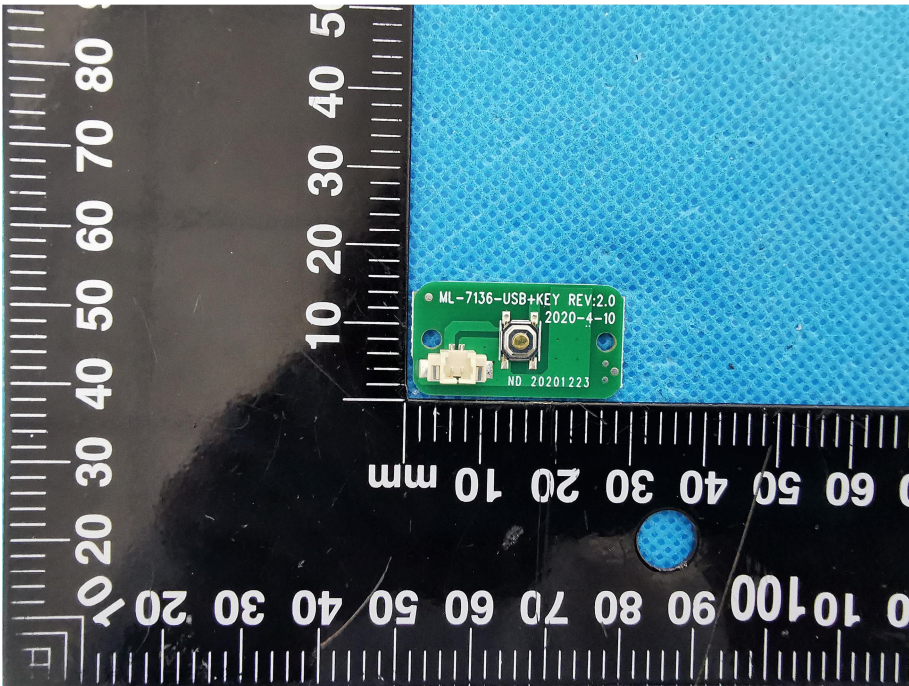

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is black and partially disassembled, revealing a green printed circuit board (PCB) with various electronic components, a blue battery, and a white cable with a black connector. A black ruler is placed horizontally below the components for scale, showing measurements in millimeters. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the green PCB components. The board is populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler is placed vertically to the left of the board for scale, showing measurements in millimeters. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The board is rectangular and populated with various electronic components, including a large black circular component, several integrated circuits, and surface-mount components. It is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters from 0 to 100. The board's length is approximately 100 mm.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a small green PCB component, labeled 'Solder Board-Component View 3'. The board is rectangular and features a USB-A connector on one side and a multi-pin connector on the other. It is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters from 0 to 100. The board's length is approximately 30 mm.

<p style="text-align: center;">Solder Board-Component View 4</p>	 A photograph showing a small green printed circuit board (PCB) component mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 10 mm. The component has several small components and a connector on its surface.
<p style="text-align: center;">Solder Board-Component View 5</p>	 A photograph showing the same green PCB component from a different angle. The component is mounted on a blue textured surface and is next to a black ruler. The ruler shows measurements in millimeters, with the component's length being approximately 10 mm. The component has a white connector and a circular component on its surface. Text on the component includes "ML-7136-USB+KEY REV:2.0", "2020-4-10", and "NO. 20201223".
