

<p style="text-align: center;"><b>Solder Board-Component View 6</b></p>	 A photograph showing a green rectangular component with two circular holes, mounted on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows markings from 0 to 100 mm. The component is positioned between the 10 mm and 30 mm marks on the ruler.
<p style="text-align: center;"><b>Solder Board-Component View 7</b></p>	 A photograph showing a green rectangular component with two circular holes and a central square area labeled '501', mounted on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows markings from 0 to 100 mm. The component is positioned between the 10 mm and 30 mm marks on the ruler.

<p><b>Solder</b> <b>Board-Component View</b> 8</p>	 A photograph showing a small green printed circuit board (PCB) component with four silver solder pads. The component is placed on a blue textured surface. A black ruler with white markings is visible in the background, showing measurements in millimeters. The ruler is oriented vertically and horizontally, with the vertical scale on the left and the horizontal scale at the bottom.
<p><b>Solder</b> <b>Board-Component View</b> 9</p>	 A photograph showing a white cable with a brown paper sleeve. The sleeve is partially unwrapped, revealing the cable. The cable is placed on a blue textured surface. A black ruler with white markings is visible in the background, showing measurements in millimeters. The ruler is oriented vertically and horizontally, with the vertical scale on the left and the horizontal scale at the bottom.

<p style="text-align: center;"><b>Solder Board-Component View 10</b></p>	 <p>A photograph showing a solder component, likely a component carrier or connector, with a white fabric-like covering. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mm mark at the bottom. The component is approximately 100 mm long and 20 mm wide.</p>
<p style="text-align: center;"><b>Solder Board-Component View 11</b></p>	 <p>A photograph showing a green printed circuit board (PCB) component, likely a component carrier or connector, with various electronic components and a silver-colored metal pad. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mm mark at the bottom. The component is approximately 100 mm long and 20 mm wide.</p>
