

<p style="text-align: center;">Solder Board-Component View 12</p>	 <p>A photograph showing a small green printed circuit board (PCB) component mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length approximately 10 mm. The component has several surface-mounted components, including a large black chip and several smaller components. The text 'SOLDER BOARD' is visible on the component.</p>
<p style="text-align: center;">Solder Board-Component View 13</p>	 <p>A photograph showing a small green printed circuit board (PCB) component mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length approximately 10 mm. The component has several surface-mounted components, including a large black chip and several smaller components. The text 'SOLDER BOARD' is visible on the component.</p>

<p>Solder Board-Component View 15</p>	

<p style="text-align: center;">Solder Board-Component View 16</p>	 <p>A photograph showing a blue cylindrical component, likely a battery, with a red and black wire connected to it. The component is placed on a blue textured surface next to a black ruler for scale. The ruler shows markings in millimeters and centimeters. The component is approximately 100mm long and 10mm wide. The text on the component includes 'HDS 18650 3000mAh 3.7V 11.1Wh' and '2020-06-11'.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph showing a green printed circuit board (PCB) with various components. A red box highlights a specific area on the board, labeled 'WIFI Antenna'. The board is placed on a blue textured surface next to a black ruler for scale. The ruler shows markings in millimeters and centimeters. The board is approximately 100mm long and 50mm wide. The label 'WIFI Antenna' is in a red box with a red line pointing to the highlighted area.</p>
