6912.001	V	56.9	-38.4	-13	25.4	186	270

Note:

- 1) The disturbance above 18GHz and below 30MHz was very low at band LTE Band2/4/7/25/38/41, and the above harmonics are the highest points could be found when testing, so only the worst case data had been displayed.
- 2) LTE Band5/12/13/26 working frequency lower than 1GHz, only test the tenth harmonic of the highest fundamental frequency. And the disturbance below 30MHz was very low, and the above harmonics are the highest points could be found when testing, so only the worst case data had been displayed.
- 2) We have tested all modulation and Bandwidth, but only the worst case data presented in this report.

7. Photos of the EUT

Please find the photos of EUT in APPENDIXES.
