3. Main Specifications
Precautions In order to avoid unnecessary damage, please pay

attention to the following information before use

- Avoid looking directly at the strong light During the use of the device, please do not look directly at the projection light source of the optical camera lens to avoid damage to the eyes.

- Do not block the lens During the use of the device, do not block the optical lens with any object.

- Stable placement Please place the device on a stable level table when using it to avoid damage caused by falling.

Heat dissipation When the device is in use, you may feel hot air coming out of the vents, which is a normal heat dissipation phenomenon.

Non-design and production defects.

- Prohibition of covering products Do not place the device on soft items such as quilts, blankets, etc., and do not cover it with other objects.

So as not to affect the heat dissipation, cause the device temperature to be too high to cause automatic shutdown or affect the normal use of the product.

- Place location Do not place the device in a place where the temperature is too high or humid, and do not place it in a place with dust or smoke in order to avoid contamination or damage to the optics and shorten the life of the equipment.

- Accessories Please use the original power adapter and accessories, do not use the products that are not matched.

- Water resistance This device is not waterproof, please keep it dry.

- Activation code If the device comes with an OS activation code, it cannot be returned or exchanged after it is activated.

After-sale precautions Please read the above precautions in detail. If the device is not used according to the instructions in this manual, the Damage or poor operation

will not be repaired or repaired for a fee. Other accessories products, need to consult after-sales service

Special line, buy original accessories to protect the normal use of the equipment.

1. Product introduction

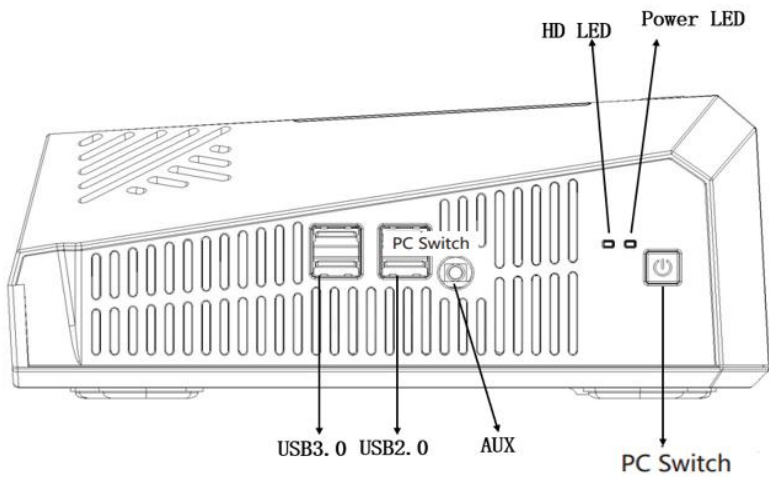

(1)The product list contains the following items

(2) · Equipment parts and function description

VOL + Loud Volume

VOL - Low Volume

Volume Mute

七 · Mirror left and right / Mirror up and down

1.  **left and right**

2.  **up and down**

3. Main Specifications

Processor: Intel Core® i7 8565U quad-core processor Memory: 8G

Storage: 512G SSD

ANSI Lumens: 1000 ANSI Lumens

Physical Resolution: 1080P (Support 4K)

Short Throw: 1M 60 " 1.5M 100 "

FCC Statement This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:-- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
