Subject: Labelling Attestation Letter

FCC ID: 2A3C7-WIFIG5P

To whom it may concern

This is to confirm that EVBox North America Inc. hereby attests that modular transmitter FCC ID: 2A3C7-WIFIG5P meets the requirements of CFR §2.925(f) *Identification of equipment* in that, because the module is so small that it is impractical to label it with the FCC ID the FCC ID has been placed in the user manual.

EVBox North America Inc. further attests that, as we are solely responsible for the integration of modular transmitter FCC ID: 2A3C7-WIFIG5P into host products and no integration of the modular transmitter will be allowed by any third party, no device packaging is supplied, and no removable label is attached to the device (because the modular transmitter is always under the control of EVBox North America Inc trained personnel).

Yours faithfully,
